[0:00] Conspiracy theory. Conspiracy theory. Now people might know that the media, the fake news if you like, are calling a message that I gave lately a wild conspiracy sermon.

Because I'm a counsellor locally, as well as a pastor, the media has been targeting me. And the story featured in the advertiser of electronic media. It told of my sermon, which is titled, Warning! Perilous Times Ahead. And it's one of our best performing videos now, so thank you, the advertiser, for that.

In fact, I directly told the media this in response to their questions. They sent me some email questions and I quote, I have raised my personal concerns about the prospect that some technologies could pose a threat to the freedom of citizens.

As a pastor, I believe and preach what the Bible says about the hope and peace that we can find in Christ in the midst of perilous times.

[1:13] That is my emphasis. End quote. Now, of course, they chose not to include that statement in the article. But, nevertheless, it's put our church out there and I'm not afraid of what we've talked about.

I stand by what I said. It was entirely truthful. My emphasis is not technologies, per se. But it is on that bright, glad hope that we have. Amen?

The bright, glad hope that we have as believers in Christ. Those who know the Saviour. We have that blessed, joyful hope. Christ is coming. Maranatha. Jesus Christ brings hope to hearts by faith. Salvation.

Well, today someone has particularly made a four and a half hour trip to be here with us. And he asked me tongue in cheek for another conspiracy sermon.

So I'm going to blame Ivan for this one. Here goes. Really, I'm talking about the kind of topsy-turvy world that we're living in today. As Moses touched on, this kind of topsy-turvy world that we're living in today.

[2:17] And Isaiah 5 verse 20 says, Woe unto them that call evil good and good evil, that put darkness for light and light for darkness, that put bitter for sweet and sweet for bitter.

In fact, the things that we're talking about is really no conspiracy at all. Really, it is information that is documented and on the public record. Let's talk about conspiracy.

And we will relate some of the things that are going on around us right now. Really, look back in time. The ultimate conspiracy began in the Garden of Eden, didn't it?

That delusion of mankind started right here in Eden. Satan conspired against God. And right through, we see how this conspiracy is unfolding.

This conspiracy is between good and evil. It's a conspiracy between God and the devil. It's a conspiracy. It's a conflict. It's a clash of ideals, of worldviews.

[3:17] An agenda that calls evil good and good evil. And Satan has worked since Eden down through time and he's still at work today. It was he, the devil, who moved the Jewish religious leaders to conspire to kill our Saviour.

The big question all hinges on who is in authority. Who is in authority over your life? Who has the lordship?

Who is in control? Is Jesus Christ Lord? Will you fear God or man? Now I'm going to show you a few images to help me explain what is happening. I've tried to be selective and not present anything that is unduly offensive.

My object is to reveal some objectionable things though so that we are informed. So there will be some images that are somewhat confronting. But I hope that we can all get stirred up in a good way

today.

We need to know what Satan's agenda is and continues to be. His conspiracy against the Most High God. He calls evil good and good evil.

[4:23] And Satan's war, his conspiracy continues. You might have seen the latest Grammys. It featured the song Unholy by the singer Sam Smith and Kim Petras.

It's a song, the title Unholy. It's a song about being unfaithful in marriage. And Sam Smith donned a satanic top hat with horns off it as huge flames heated up the stage.

And Petras, the woman singer, portrayed herself as a caged demon. And the crowd here are wearing these glowing horns. The whole stunt was an immoral public mockery of God.

And all that is good. And CBS, the television network, tweeted describing it, Let's worship! The whole event, this music event, was really, it was a satanic celebration, people.

These people are playing with fire. People are calling good evil and evil good. That's what they're doing. And Satan's conspiracy continues. Actually, he has joined the church.

[5:28] He's joined the church. This is one of his strategies. The infiltration of the church. The church of England now is proposing to use gender neutral terms for God. So you're not going to be able to call God Heavenly Father.

What? Of course, God has always revealed himself in masculine terms. With masculine names. With masculine imagery. There's hundreds of times that he is referred to by masculine pronouns. His roles or activities always use masculine male terminology. King, warrior, groom, prince, priest, and of course father and son.

But they say now this language is patriarchal. And so we must redefine God and rewrite the Bible. This is all part of the conspiracy, isn't it? It's all part of the conspiracy of Satan against God.

Who is in control? It's all part of man's war against God. And the depravity of Romans 1 culture is in our face today. The godless culture of our world.

[6:35] People, we're in a culture war. And as God's people, we faced it before. Look back. Really, it's Sodom, Egypt, Babylon. Repackaged, revisited.

Now in glossy, snazzy Technicolor. With these concert events. And you name it when they have the opening of some. The Olympics. You name it. They have these big showy things, don't they?

They've got all this imagery. What is evil and wicked is joked about and made fun and entertaining. They're calling evil good and good evil. Here's one example.

Disney. Now you might be surprised. Oh, Disney. That's a harmless, family friendly. Disney. Oh, all very nice and fine. Just a cartoon. Come on, preacher.

But Disney is the largest media conglomerate in the world. And Disney have produced now an animated horror comedy series. It's called Little Demon.

[7:32] What is it about? It's about a woman who's a witch who mates with Satan and gives birth to the Antichrist, who is female. And Satan comes after his daughter to claim her soul.

This is Disney. This is Disney. The Disney show here. It's full of witchcraft themes, occult images. It's about desensitizing people to paganism and the demonic realm.

Now bear with me while I show some of this stuff. I hope it's not causing you to get too sick, feeling sick in your stomach today. But this movie series, it features multiple uses of the F word, other profanities, animated gore, graphic violence and nudity.

Really, Disney has been playing with demons for years. They're just more blatant now. There's been magic, occultism, psychic phenomenon. Basically, it's witchcraft.

I'm telling you like it is. It's witchcraft. Disney himself was a 33rd degree mason. Disney's company streaming platform, Disney Plus, features R-rated movies now.

[8:41] They're calling good evil and they're calling evil good. I'm sorry if it's causing any concern. Other filmmakers are intent on turning children's classics into very dark horror movies.

One of them is called Blood and Honey. It's based on the character, can you believe it, Winnie the Pooh. It's coming soon to a cinema near you. I'm not going to labour these gory themes here, but it's obvious, isn't it?

What's behind this Winnie the Pooh? It's coming out in cinemas any time soon. And what are they saying in announcements now in the Disney theme parks? They no longer say ladies and gentlemen, boys and girls, because it's seen as not gender inclusive enough now. And the term fairy godmother is out. They can't use it. It's too gender specific. So Disney's pushing this radical political ideology upon children.

They're grooming our children. They're trying to seize the minds of the children. They want your children. They want them as early as possible. They want to propagandise and brainwash them. [9:51] They're pushing ideological leftist agenda. What else are they up to? They're pushing gender fluidity. They're taking kindergarten children and first graders now, and they're teaching these children that they're gender fluid.

Gender fluid. This is kindergarten children. Teaching them, encouraging them to be chemically castrated and mutilated. And they sway them to take puberty blockers that will alter their lives forever.

Disney's social engineering has become anti-family, anti-parent. When you think about it, I'm quoting here, the most rebellious thing one can do is to disdain God by denying the way that he created us and instead deceiving ourselves into living an alternate reality.

And in doing so, some are willing to go to extensive lengths to do irreversible damage to their own bodies. They're telling this to children. Look back in time, we got Molech.

He was worshipped by child sacrifice. Our world today, human life is devalued, isn't it? It's routinely devalued. Nowadays, there's abortion.

[11:05] The environmental movement is now setting the stage for the slaughter in this century of billions. Humans, they tell us, are the greatest enemy of Earth. The planet.

The planet's been elevated to God status. Really, it's the resurrection of ancient paganism. And of course, we've been told that we must be tolerant. Tolerant.

Now, I'm paraphrasing another preacher here who's talking along this line of tolerance. And he said this, Was Moses tolerant when the boy cursed his parents? No, absolutely not.

Were the Levites tolerant of 3,000 who worshipped the golden calf? Absolutely not. Was David tolerant of Goliath? Did David try to make a peace treaty with Goliath?

No, when David heard Goliath cursing the Hebrew God, he said, I'm coming after him. Was Elijah tolerant with Jezebel when he called out to her and said the dogs are going to go and lick her blood?

[12:03] No. Was John the Baptist tolerant with the immorality of King Herod when he called him out? And when he called the Pharisees a bunch of vipers? Was the Lord Jesus tolerant of the hypocrites when he called them whited sepulchres full of dead men's bones?

Was Peter tolerant with Simon Magus trying to buy the gift of the Holy Spirit with money? Of course not. It's interesting now, back in history, in pagan Rome, they were very decadent and immoral.

The Romans were very tolerant and inclusive towards just about every kind of sin, towards anything. The Romans were very tolerant to everything, but Christians.

But people like you and me who love Jesus. And nowadays there's the same emphasis on tolerance, inclusion, but not for Christians. Our Prime Minister has said just yesterday this, I quote, we need to celebrate our diversity, not just tolerate it.

Things are going down. Fast. We're certainly living in a world full of warped values. Tolerance, it seems, is not enough.

[13:17] They want more. The change agents want more. Funny how that in our so-called tolerant society that Christians are being warned not to say anything. They might put a story about your conspiracy sermon or something.

You know, if you say something, they're going to come after you. I'm ready for it. We've got to get ready for it, people. Radical new laws threaten Christians who try to help people flee to Christ and leave the city of Sodom.

What's going on in New South Wales now? If you help someone who's trying to get out of Sodom, they'll send you to jail. That's what's coming. That's what's coming.

Really, it's no wonder that many pulpits are silent for fear of being criticised. I say this is not a time for tolerance, but a time for truth. We must speak the truth in love.

Of course, in love. So what's going on in our world? I believe the stage is being set for tyranny. It's totalitarianism.

[14:19] Such government has led to the slaughter of hundreds of millions of people during the 20th century. And the plan is still depopulation. Here's a quote from an ecologist, a professor, Eric Pianka.

He told a meeting in Texas of some scientists that 90% of his fellow human beings must die in order to save the planet. That's about 6 billion of us have to die.

That's what they're saying. 6 billion. We've got to save the planet. That's what the science says. The scientists say. Some of them.

Of course, we know there's numbers who don't say that. But the Word of God tells us that this earth that we're living in will be given into the hands of the wicked. So now for some more conspiracy talk. The Great Reset. That's one of the things they picked on me about. Actually, the Great Reset is really happening. It's not a conspiracy. You look at it on their own websites, they'll tell you just what their agenda is.

[15:25] The Great Reset is coming. The Great Reset is the plan of the elite, the so-called rulers of the world. And here on the left, we see Klaus Schwab.

He's the founder and chairman of the World Economic Forum. And Klaus Schwab, he's written a book called COVID-19, The Great Reset. And he says, now is the time for a great reset, a resetting of the world.

What does it mean? The message is that the global economy is greatly challenged right now. And this pandemic, the COVID-19, has given the perfect opportunity to move to shut down capitalism and restart, reset, restart the world economy under a new model.

And Paul Kelly, an Australian MP, has got the guts to say something about this, says it's all about sensationalism, creating panic in society, hoping that people will surrender their freedoms.

You can hear the story there on Sky News. This is a recent clip. There's ongoing fear-mongering happening. They want control. They want control. And friends, free speech is under threat directly.

[16:36] The World Health Organisation has mooted an international treaty that would shut down free speech and government accountability on a global scale. And these measures are aimed to control speech around the globe.

They want to shut down churches. They want to shut down preachers. They want to shut down Christians. Their aim is to hide the truth. About vaccine failure and infectious diseases, the origin of new outbreaks, proper treatments and failures and risks of mandates and forced protocols.

And we've all got different convictions about some of these things that I'm talking about. But I think there's an agenda behind the pushing of some of this that the World Health Organisation wants command and control over the censorship process under international law.

They want to shut down dissent. So what is the Great Reset? Basically, they want to reset the whole planet and replace capitalism with socialism and replace nationalism with a one world government.

And that fellow that we saw there, Klaus Schwab, President of the World Economic Forum, has said this, that the so-called COVID pandemic represents the very crisis needed in order to seize control of all the world's governments for all of them to come together into one entity.

[17:54] It sounds to me a bit like what happened in Genesis 10 at the time of the Tower of Babel where we read about a man named Nimrod. In the Hebrew, Nimrod means rebellion.

In Genesis 10 verse 8 it reads, So according to tradition, it was Nimrod who built the Tower of Babel.

What was the Tower of Babel? It was a unity project. The idea was to build this tower, to build it up to heaven. It was religion and politics and economics all coming together.

This was really the first human government. And God was against it. He came down and he confused the languages. Satan's ancient ambition, his conspiracy continues.

Satan wants to be worshipped. He wants control. He wants to be in authority over the world. And Satan's plan is to receive that worship through the Antichrist.

[19:09] Now it's interesting, this is an old quote, but this was quite a major player at this time, Paul Henry Spark. He was a former Belgian Prime Minister and he was a driver for what is now the European Union.

And he said this, We do not want another committee. We have too many already. What we want is a man of sufficient stature to hold the allegiance of all people and to lift us out of the economic morass into which we are sinking.

Send us such a man and be he, God or devil, we will receive him. Now this is not a joke or a conspiracy theory that's an actual quote.

It's a true quote. The world is primed for the ultimate one who's coming. Revelation 13.2 tells about the dragon. It shows up in the book of Revelation.

The dragon, Satan, gives power to the beast, the Antichrist. So Revelation 13.2 describes him in picture form. And the beast which I saw was like unto a leopard and his feet were as the feet of a bear and his mouth as the mouth of a lion.

[20:17] And the dragon gave him his power and his seat, in other words, his throne, and great authority. I believe that we're seeing, I'm not meaning to read into things over much, but we're seeing the pieces are coming together of the jigsaw puzzle I put to you.

I think we're seeing things coming together. It's starting to all fall into place. The infrastructure of the last days, you could see how a one world government could take shape. It could take shape quite relatively easily.

And the Bible tells about such a thing, that the world will be forced to submit to such a control system. We read Revelation 13. It tells us of a mark.

It says the Antichrist, he causeth all both small and great, rich and poor, free and bond, to receive a mark in their right hand or in their foreheads.

Verse 17. And that no man might buy or sell, save he that had the mark or the name of the beast or the number of his name. Here is wisdom. Let him that hath understanding count the number of the beast, for it is the number of a man.

[21:31] And his number is six hundred, three score and six. Six, six, six. How are these things starting to come into place? In current news, we're seeing that things are coming together very quickly.

You can go shopping in some stores and pay with your palm technology. There's a lot of this stuff going on. There's already a dictatorship, a digital dictatorship coming to power, where they can control and monitor all your transactions.

So I know they've made a big thing in the media about me talking in passing, really, to smart cities. That's just a part of this scheme. Really, smart cities are surveillance cities.

They're talking of 15-minute cities or 20-minute neighbourhoods. So they want to contain people in zones. Behind it all is this radical agenda driven by an irrational fear of supposed man-made climate change.

And climate change is like a religion these days. There's many dissenting voices that are being silenced that you don't hear about that argue that it's all a big load of rubbish, frankly.

[22:44] These are actual documented facts. There's no secret here. This is not conspiracy talk. The plan is that you will live in a city where you don't own anything.

This is a display that was an advert that captures the wording of the World Economic Forum. You'll own nothing and you'll be happy.

You're going to live in a city where you don't own anything. And this doesn't simply stop at eradicating home or car ownership. What some of these people are saying, what they're postulating, is a future where we don't even own appliances or clothes.

Now, I don't agree with Glenn Beck, who is a Mormon, but I'm going to quote him what he says about smart cities because I think he's on the mark here. I quote, What would life be like in these cities?

Their plan for 2013 is that your family will eat zero amounts of meat and zero amounts of dairy. Each person will be restricted to 2,500 calories a day.

[23:51] Each family member will only receive three new items of clothing per year. So ladies, stop going shopping. And men. And this is on the World Economic Forum site.

And there will be zero privately owned vehicles. End quote. One of the other big things on the horizon is central bank digital currencies, or CBDC.

It's already being rolled out. It's conceivable that this technology can be used to seize your money if you hold views that contravene the mainstream narrative.

So this programmable money will allow governments to check your behaviour, make sure you're keeping in line with the latest agenda. And if you don't fall into line, you will face repercussions.

Here's what one of their leaders are saying. The era of free will is over. This is Yuval Noah Harari. He's a top advisor to Klaus Schwab in the World Economic Forum.

[24:53] And this man, Harari, he's an atheist, Jewish, sodomite. And he has been called by some a prophet. And this WEF advisor says that the global elite don't need the vast majority of the population to live.

He says some people are just no longer useful. So make sure you're useful, people. He says, I'm going to quote, humans are now hackable animals. The idea that humans have this soul or spirit, they have free will, and nobody knows what's happening inside me.

So whatever I choose, whether in the election or in the supermarket, that's my free will. That's over. So what Harari is saying is they can read your mind and they can manipulate what you believe and do.

We can be controlled. That's what they're saying. And the ultimate agenda is that they can stop your travel, they can prevent you from buying certain foods, they can steer you towards the current social agenda.

I'm sorry if I'm depressing you this morning. They want to be able to create a virtual record of everything that you've ever done, a digital ledger. And the central bank would know exactly what you use your money for, how much you save, how much you borrow, how much you spend, and where.

[26:09] Imagine what could be put into place to track and trace you. Well, you don't have to imagine. They're already rolling it out. It's already happening. The World Economic Forum is very committed to radical action on carbon, on climate change.

And the scientific advice from experts who tell us that climate change is a hoax are being silenced. Their voices cannot be heard. They just shut them down. They de-platform them.

They ban them. And climate change legislation is a wonderful tool to bring governments, to bring resources together. It doesn't matter that it's not true.

And climate change regulation will stifle small businesses and increase tax. What they basically want is centralised power. And they'll remove national democracy.

Now, let me say this. I know some of you might believe there's climate change. Look, there's climate change in the sense we've got summer and winter, springtime and harvest. But as far as climate change that's caused by you breathing or you driving your car, I think that's not true.

[27:17] Personally, I'm just putting it out there. So banking systems have broken. There's increasing talk of a global recession. And economies are starting to collapse. Look at what's happening.

AI, artificial intelligence. Robots are replacing people in many industries. And this is only just beginning. There's projections of mass job losses. No one's safe here.

Shop assistants are being replaced. It's mind-blowing. Just about every job sector has an impact. And it's going to ramp up.

We're witnessing the controlled demolition of the economy. And so the Great Reset is supposedly the answer. There is even now a growing group of environmental activists who are championing the absurd idea that we should convert all of our meat and wheat-based agricultural industries and move to insect-based food economies.

So you can get fake meat. Have you had one down at the fast food place? What do they call them? Fake meat. You can buy it down at the local fast food shop already. Lab-grown food.

[28:28] And they want us to eat bugs. I can remember a few years back in Adelaide while I was still a public servant I went to a state government event where they served up some Rocky Road cake that was made out of bugs.

They wanted to try it out on us. We were the guinea pigs I think. And they're making this. This is another article about Rocky Road cake that's made out of bugs. What can we expect according to the Bible in coming days?

Even our very food they're going to control. One ultimate leader with many national leaders we see that is what the Bible tells us of.

An ultimate leader he's going to control military resources economic resources political resources and he'll have full control over the infrastructure of the world. Now if you want some real meat there's a man here who's got some real cows in his pasture and I can refer you to him I've got some in my freezer thanks Ivan but I don't want to be eating fake meat or bugs I want to eat the real thing that God has given to us and the Bible talks about the Antichrist who's going to control even such resources that we can't buy or sell without this mark and the Antichrist is going to speak blasphemous things against the Most High.

His power and authority is given him by Satan and he's going to exercise economic control. He's going to control finances. Now whether we'll be around to see the Antichrist is a question I don't think we will be but I can imagine he's going to start taking control before he reveals who he is.

[30:06] We're witnessing a big digital shift a digital identity they call it a data driven economy and society and those who refuse to obey or accept the beast will not be allowed to enter into the commerce of the world.

This is off the World Economic Forum so it's encompassing all manner of things. The Antichrist is going to have an identification system and a system of worship and he wants to control people's opinions and their actions.

We're already seeing this rolling out. Joe Biden the President of the United States of America he's tried to launch his Ministry of Disinformation some have called it.

They've joked that it's like the book 1984 where there's a ministry called the Ministry of Truth. Really it's the government's propaganda. It's propaganda. That's what it is.

And here's what Stalin said a lie told often enough becomes the truth. Tell a lie often enough people will believe it. Climate change climate change climate change great reset great reset great reset save the planet save the planet save the planet a lie told often enough becomes the truth.

[31:18] We already have these supposed fact checkers they check everything that goes out there and if it does not agree with what they say is acceptable then you will get censored.

Friends our individual liberties and freedoms are under threat and really the basic human right is the right to the truth isn't it? To the facts but dissent is being stifled.

Are you going to fall for the lie? The Bible talks about a lie. Are you going to fall for the lie? Or are you going to believe the truth? They want your compliance tolerance they want power over our health our lives our deaths our plates our jobs our families our children parental authority is being challenged they want to steal your children and dumb them down Christian schools are caving in to their agendas too the change agents hold the purse strings that's why they hold the purse strings how hard do you want me to jump?

There's escalating threats right now in all of these things friends and we can expect a sudden reaction by government I'm not meaning to be a doomsayer here this morning but we've got to face the reality and some of these things could be quite happen at the blink of an eye a nuclear war an EMP attack where they just take everything out electronic financial collapse the banks go broke can't get anything out of the ATM anymore if you still do that old fashioned thing a bioengineered pandemic a cyber attack a global famine a report I heard three days ago Russian officials are spending a fortune on preparations for bomb shelters across the entire country of Russia right now this is three days ago they're building bomb shelters in Russia I don't think we have much time and the ultimate conspiracy is the topsy-turvy world that really redefines everything doesn't it

Isaiah 520 woe woe unto them they call evil good and good evil that put darkness for light and light for darkness that put bitter for sweet and sweet for bitter we've got Romans one culture now people have a reprobate mind a woke culture a new political order is pushing these things for us it says for

[37:18] that denying ungodliness and world who lasts we should live soberly righteously and godly in this present world looking for that blessed hope and the glorious appearing of the great god and our saviour jesus christ who gave himself for us that he might redeem us from all iniquity and purify unto himself a peculiar people sell us of good works the good news is you can know him i know we like to share this when we witness sing to folk that you can know that you're going to heaven you might say i think i am i hope i am the bible says you can know that you're going to heaven you can know that you have that you have in your possession everlasting life as john he that have the son have life he that hath not the son of god have not life these things have i written unto you that believe on the name of the son of god that you may know that you have eternal life and that you may believe on the name of the son of god this conspiracy that we're talking about is real they're calling good evil and evil good really it's a battle between good and evil it's a conspiracy about your soul these are spiritual forces this is not about klaus schwab it's about the devil that moves men like him it's a conspiracy it's about your soul are you saved do you know the saviour that's what matters that's what counts you can get all your views about this or that you might be perfectly right about what you think or believe and what your philosophy is as far as the world would reckon it but if you don't have the saviour you're lost you're lost you must be saved you must trust christ you must trust him it really boils down to who are you going to believe who are you going to believe who's the authority that we're going to come under is it christ who are you going to bow down to is jesus christ lord let us pray lord we thank you that in all of this confusion at times the world's mess there's a message for this mess age lord we thank you that this messy age has the message of salvation if

they'll hear it and receive it there is a saviour they can trust and you are the only one that can save lord we pray each one might know their heart's trust might be in that saving work that you completed at the cross for every man that can believe you have given everything to save us lord we thank you for that grace that came and still extends to such as we that we can find grace in your eyes like noah did lord like lot did we can get out of

Sodom we can see the grace of god that delivers us from our shame and sin and sets us free that truth that can set our soul free lord we pray each one might have that knowledge today and lord give us the grace to live boldly with courage with conviction to not be discouraged to not be deterred lord not to be weighed down not to be overwhelmed with some of this stuff that we see but to know yes our blessed hope is sure and certain and lord we know that you'll take us out of wrath by your blood you'll take us out of wrath by your grace we thank you lord for that deliverance that is in Christ Jesus that we can know by your mercy today in Jesus name we pray amen
