Preacher: Ben Wong

[0 : 00] There were some people who worked for a long time, and then they had their career. They all did a lot of work. There was a man who worked very hard for a tall lot.

He finally made a rich, and his whole family lived a wealthy lot. But at that time, he found his son, because he had a family before his family. So he did not like to work or to study, he was just a kid who wanted to study.

Then he found out that his own son, because the family was so rich, didn't want to study or work, had no motivation, and just wanted to stay away and party. Of course, as a father, he always taught his children, how to do his hard work, and how to do it, you can enjoy your success, and how to do it.

Being a father who taught the teacher's son, he must work hard in order to attain the satisfaction of his successes. Then the son instead replied, Oh, but you've prepared everything for me already. Why should I go out there and work so hard, given everything you've already been handed to me?

The father was very sad to hear his son say this, and because he wanted his son to experience the wealth of interest in life, he sold all of the wealth that he had, and donated it all to charity, so that I live in coffee.

[1 : 33] He thought, Oh, because he didn't have any wealth or money, the son is forced to go out to work, he worked and became a Christian.

Then what happened? He failed yet again. Because he wanted to solve the problem. Because then the son came up with a strategy to beat poverty.

Just to find a rich woman's daughter to beat poverty. And that is the scenario of rich man's daughter. And make sure she's a only child as well. And that way he wouldn't need to work, but still would inherit a lot of wealth.

So are we looking to feel numb as though? Father was feeling truly hopeless. He was feeling truly hopeless, thereby getting pregnant. There was Halcyata in a little rage to keep this alone off. In this period descors hehas sort of very normal and is the wolf ofrike.

In my life he had really higher, and it wouldn't have any other situations. So araps hekl curiosities. The father who previously started off with nothing had built up his assets and his wealth so much that now he has to start to stretch again because he didn't have anything anymore.

[2 : 49] But this time he realized he had become old. And he didn't have the strength and motivation he once had and he also felt very guilty.

Why did he say that? Because he thought that it was he that destroyed the comfortable lost family and told that it was his fault in the party.

So then he decided to get a couple of very tall bridges to jump off to show himself. And then he decided to get a couple of very tall bridges to jump off to show himself. So then he said to him, He said to him, He said, He said, He said, He said, He said, He said, He said, He said, He said to him, I noticed you from the bottom of the bridge, and as soon as I saw you, I knew that you were going to kill yourself.

He said, since you're about to kill yourself, can I please have your watch wallet since you want to be made in your sins anymore? He said, if you give it to me now while you're still alive, it's legal, whereas if I took pocketed it off after you're dead, it's illegal.

He said, I can feel it in my life. He felt like the money in life is a lot of■■■. The father thought and realized how troublesome money was in love.

[4 : 44] When he was young, he was very troubled, because he had no money, and hence he had to work very hard. And after he became old, he has a lot of money, and he was troubled and stressed because his son's raising it.

But today, even as he was about to die, money nevertheless was heated to cause him trouble. And because even so, if it was still characterizing how few valuable positions he had left.

And just as the phrase that he was mentioned is very meaningless, and if you were him, would you still jump up?

There are people who don't jump up, and they don't jump up. And my dream son might not jump up. I don't know. I don't know. And you don't know. We're back to the Bible. We're back to the Bible.

We're back to the Bible. The most rich, the most rich, the most rich, the most rich, the most rich, the most rich, the most rich. We're back to the Scriptures. Solomon, the richest man in the world in those times, along with the highest rank and power, what was his view of money?

[5 : 57] There are some people who have read the Bible. We'll read the Bible. In the Bible, it says, in the Bible, the 10th verse, He's not a rich man, but he's not a rich man. He's not a rich man. He's not a rich man.

He's not a rich man. He's not a rich man. So look at verse 10 in chapter 5. Whoever loves money never has enough. Whoever loves wealth is never satisfied with their income. His true is meaningless.

And we'll just think about this statement and whether or not it is true today. There are no people who have a certain number of money.

I believe it is true because not many people at all will be satisfied with the amount of money they already have. If we can make a hundred dollars today, your goal is more than a thousand dollars.

So, the Bible says, people will never be satisfied with money because they will always want more.

[6 : 58] In the 12th verse, the Bible says, If you have a rich man, you don't have to eat the amount of money. The food of the rich man is not enough.

In fact, the problem is, again, in verse 12, when Solomon says, The sleep of a laborer is sweet, whether they eat a little or much. For the rich, their abundance commits them no sleep.

For the rich, their abundance commits them no sleep. For the rich, their abundance commits them no sleep. People with no money don't really have anything to worry about when they sleep. And hence, they sleep well. It's not going to worry.

But there are no people who are not. They are very worried that when they wake up, they're not going to worry. They are very worried that when they wake up one day and have all their possessions stolen.

Although I'm not very rich, I have previously had these kinds of exchanges. I'm not very worried about the rich man. I'm very worried about the rich man. Before I was in Christ, I used to love investing in stocks, especially in foreign exchange markets.

[7:59] What is investing? Investments are really speculation. Trying to make something that works. Especially in foreign exchange markets. What is investing? Investments are really speculation. Trying to make something that works. especially in foreign exchange markets. Especially foreign exchange markets. Especially foreign exchange markets. Unlike shares, foreign exchange markets have traded 24 hours a day.

If you bought into a foreign exchange market, you could earn a long division. You could slate and potentially gain \$10,000 to gold.

But at the same time, you could potentially wake up and lose the situation before. The worst is that in the first half of the night everything is good and you're making money and making money.

And then you think, oh, it's made so much money already, I think I'm going to sleep now.

And then suddenly there's an exogenous shock, like September 11 happened. And when you open your eyes and check your portfolio, all your money is lost.

[9:20] And at that time, you'll blame yourself for saying, why did I stay, if I didn't stay, I wouldn't have lost all this money. Money is like a curse that ties down your thoughts, pointing you to the unknown you just said.

It's true, people cannot be nearly satisfied with just food. Hence God said, man cannot survive on worldly food alone.

I'll ask you a question. If you have a question, how many stomachs does a cow have?
Four stomachs.

Five? Five? Five? Five? Five? Five? Five? Five? Five? Five? Five? Five? Five? Five?
Five? Five? Five? Five? Five? Five? Five? Five?

[13 : 37] Five? Five? Five? Five? There has four stomachs. In the morning, the calf has four stomachs. One? Five?

Five? Five? The calf wouldn't eat grass. All it has to do is fill this four stomachs. Then we need some stomachs. Five? Five? Five?

Five? Five? Five? Five? Five? How many stomachs does it human? There are 4 people.
How many stomachs?

There are 4 people. One. Does everyone agree with one? Does everyone agree with one? Do you agree with one?

Am I? Do you agree with one? I'm wrong. That's wrong. What is wrong? People apparently have blue stomachs.

[illegible]

We just spend of all our ■ ■ ■ part in a relationship. It's not something like it, it's not a thing. We are always so stupid that we only try to satisfy the depleting needs that we one day will not exist.
