Preacher: David Antwi

[0 : 00] Welcome. Thank you for choosing to listen to another word-filled message by David Entry. Preaching is the means by which God manifests His Word and nourishes our spirits.

May the life of God enter into you anew as you listen to this message. Be blessed. Do not say who will ascend to heaven to bring Jesus down or who will ascend to the deep to bring him up.

He said, what does it say? What does it say? Talking about the system that is in place. Romans chapter 10. The system in place. He says that what does it say?

The system in place is that the Word is near you. In your mouth. That's the system. That's the system in place.

I was, last month I was traveling to the country. I traveled when I was coming back at the airport. Obviously they check everything and there's always one thing.

[1 : 07] Before you even board the plane, they want to see, after you have a ticket, they may not, they won't ask you. They will give you a ticket. But sometimes they don't ask for anything. When you get to the counter to check in, they ask you, where's your passport?

Because your passport has the details they need. It's a standard procedure. You can't travel overseas with the driver's license. You can't go to China from here or Japan and say, my driver's license is enough.

Why? Why is it enough? Because it's a system. If you are from here, you are going to Scotland, you don't need your driver's license. You don't need a passport. Why? Because it's a system.

There are systems in place. Somebody say there are systems in place. A system in place. If you, if you, let me use the word for the lack of better word. If you play the system, the system will work for you.

Yeah. Yeah. Play according to the, learn how to play the system. A lot of politicians, they just play the system. You have to know how the system works.

[2 : 17] Life is full of systems. So when it says that, um, the love, not the world, not the things in the world. First John chapter two verse, uh, 15 that was when it's a love, not the world.

It's not talking about the globe. It's talking about the system. It's a system of operation. It's a system of operation. Some of you, the system of operation, you know, in getting a husband, it's exposing your body in every way.

It's a system. So an auntie will tell you, why are you, what are you, you're not going to a formation. You have to go for parties, go every time. Church, church.

Some of you have heard it already. Church, church, church, church, church, church, church, church. They are, they are just moving you to operate by the world system. There's a way that seems, but the end is not good.

There's a system. So in life, life is full of systems. Why is it that keyboard? I know you've tried playing keyboard before and it was very woeful because that's a system.

[3 : 27] Life is full of system. To the extent that your body is made up of, I think, about six systems. We have the digestive system. We have the reproductive system.

We have the circulatory system. We have the nervous system. And then what else? Respiratory system. So it's more. And then olfactory. Do you know what olfactory system is?

Did we mention reproductive system? Yeah. So when we talk about a system, it's the way different parts make everything work together. So your respiratory system, your nose is part of it.

The trachea or the oesophagus is part of it. And then your lungs, a major part of it. So you take in air and exhale air and does it.

And the circulatory system, the center of the system is your heart. It takes the incoming air through the lungs, which is oxygenized or oxygenated.

[4 : 25] Oxygenated. And the oxygenated, you think I don't know something. The oxygenated blood then is pumped by, is it from the right or left ventricle?

You've forgotten that one. It's pumped. Pumped back into the system. And then at the same time, your heart is divided into two.

The left ventricle receives the blood that has been used. Oxygen has been taken out of, it has carbon dioxide. And then it takes it to your lungs.

Then your lungs take the carbon dioxide. Your nose breathes out. And the nose breaks in more oxygen. And then, you see that, wait, wait. It's a system. So you know, for a respiratory system to work, it must work in conjunction with the circulatory system.

So you, that's why respiratory problems. Somebody, you can't, because you need the air. Okay. So, so, so, coronavirus goes straight for the respiratory system.

[5 : 32] If air is not coming in, you are dead. That's why you can't stay underwater. So the body is full of systems. Now let's go back to the main point. Life is full of systems.

The reason why, even the parts of the body, the reason why sometimes they call knee-jerk reaction. All those things are nervous systems, part of the nerves.

So when something touches, especially the nerves around your teeth is bad. And your eyes. Ooh, you don't want to have bad teeth. It's bad. The nerves are sensitive. And other parts of the body.

All right. So, there is a system. In the same way, it says that, what does it say? What does the system demand and dictate? Don't just go around hoping that you, because you feel like it's too crowded here.

So you want to live under the thames by jumping into it. It says, if you are dying, why are you surprised you are dying? What does the system say? What does the system require?

[6 : 37] The system requires that you do it like this, do it like that. If you get to the airport, you are traveling to Canada, and you take your driver's license, they don't allow you to go, or you don't do your, you don't have coronavirus, anything to show that you are, whatever.

And that's the requirement. You are surprised they say you can't go. Why? Because the system has been put in place. So, when they go to parliament, they go and see what system else they can put in place, so that when you are owing, they can't come and take your car.

It's systems. Now, if you don't understand the system, and you violate, so when we come to church, most teachings are helping you to understand what sayeth it.

What is the system in place God has put in place? You can't be beating your wife and expect God to bless you. You have violated the spiritual system. God has given you instructions.

Take care. Go and tell somebody, I'm sorry. You won't do it because of your pride, and yet you won't go to overlook that and still go ahead. And God violates his system because of your situation.

[7 : 37] So, there are systems. And when you come to God, he said, what says it? What does it say? It says that the word is near that. The system makes you sure that there's a word near you.

The word of your deliverance. The word of your breakthrough. It's always near you. It is not near the pastor. It is near you. The pastor has to say it so it can come near you so that you can watch this. He said, what sayeth it? The word is near you. The word is near you. In your mouth and in your heart. Two places the word must be to work.

In your heart and your mouth. All right. Thank you, Jesus. Somebody say thank you, Jesus. Thank you, Jesus. When you go through crisis, it pushes some things into your heart.

Yeah. That you begin to want God really from your heart. Yeah. Yeah. It's good. Because, you see, until your heart agrees with your mouth. The system does not work.

[8 : 40] God. God. God. God. Shalom. God. Pastor Tkantoko. Let's see that. God. You see, you are saying something, but your heart is detached from what you are saying.

So it doesn't work. He says that the word is near you. In your heart and in your mouth. Sometimes it's good for something to push you. For you to, like Hannah.

Hannah had to pray from the bitterness of her soul. First Samuel chapter 1, I think verse 10 and 11 or so. She poured out the bitterness of, because this thing has gone too far.

Now she, Bible says she wept in anguish. King James, please. Sometimes she wept sore. So, you know when something is sore. She wept so much that the thing is so sensitive.

She wept sore. I mean, that can tell you. She's pouring her heart. And so when her heart and her mouth came in agreement. And she, and then she, there was a physical activity.

[9 : 44] There was something going on. It was so intense. The priest said, what is going on? This is not normal. Sometimes your situation makes you behave abnormally.

Yeah. You won't understand blind Bartimaeus until you are blind. Yeah. And you hear Jesus is coming. Yeah. I know, I know sisters who I can count.

Sisters who, I did, by accident in service said, oh, someone is getting married. And they are married. And they are married. It has worked for them. Sometimes something must provoke you. Something must annoy you. The bus driver must drive and leave you. Yeah. It will annoy you, Vada. I'll have to now get my car now.

I'll pass my test. I'll pass my driver. Yeah. There are times you live with somebody and they will talk to you one day. You feel like, you know what?

[10 : 44] I think it's about time. I get my own place. As long as it's a good venture. So, it says that the word is near you, in your mouth and in your heart.

What word are you talking about? What pastor don't have a... Where does the... How does your blood get oxygenated? In agreement or in cooperation with your nose.

Yes, sir. Your nose takes in the air or your mouth. Sometimes you can't believe it works as well. But your heart must work in line with your mouth.

So, it says that what's the system? What does the system... The word is near you, in your mouth and is in your heart. What word? It said the word of faith.

Which we preach. The preacher is a very important piece of God's system in changing your story.

[11 : 47] The word we preach. There will always be a word preached for you to grasp something. It said the word is near you.

Where is it? In your mouth. What word? The word of faith which we preach. Then it says that if you shall confess. Wow. It says that if you shall confess with your mouth.

What confess? That means that the preaching must have that content of what you are looking for. I'm saying all this to provoke somebody to know.

That especially in an atmosphere like this. Oh, thank you Jesus. An atmosphere like this where faith is rising. Where faith is building. It is imperative and necessary to say things.

You're saying amens. Hallelujah. Amen. When you say say yeah Jesus. Because watch this. That's how the system works. That's how the system works. The word of faith that is being preached.

[12 : 50] It's a faith word. And it's making you say something. It's bringing you in agreement with your heart. It just goes to agree with something that you are believing God for. I see God changing your story.

I see God changing your story. I see God doing a miracle for you. I see you embracing the strength testimony. So shall he be. So shall he be.

In the name of Jesus. He's capable of doing something new. Really we shouldn't be meeting in vain.

We come here for deep, strong, destiny impacting transactions. Part of the transaction is opening your mouth.

And you know there are times something will hit your heart. When it hits your heart. You see just now I said something. He said mm. He said mm. He said mm. Do you know why?

[13 : 53] Because. These are reactions from the heart. It's not planned. When something hits your heart. There must be a reaction.

Usually a sound or something. So when I'm preaching. And I'm saying that God is going to do a new thing. When I'm preaching. And I say something that you are looking for.

But the thing seems to resonate. That shall battle. With your spirit. It resonates with your desire. It resonates with your faith.

Hey. It resonates with your faith. Don't wait for anyone. Don't wait for someone to shout before you shout. Or don't wait for someone to stand up and say.

I receive before you do that. As long as the thing has hit the nerve in your heart. Your heart is ready. When your heart is ready. Let your mouth flow.

[14 : 49] Flow in your mouth. When your heart is ready. For a change. For a change of story. For a change of address. For a change of situation.

Don't be gentle. Don't be quiet. Don't be gentle. Learn how to say. Learn how to say the amen. Learn how to grab it. Should I receive?

What does it say? In other words. What does the system demand? What does it say? Know the system and work the system.

Work it. So sometimes you come to church. Right from the beginning. Someone is leading praise and worship. Or is leading prayer.

And says something and you have the. Don't just be quiet. You can be busy. Amen. Sometimes you are listening to a message. At home. Amen.

[15:52] Amen. Amen. Thank you Jesus. Allow the flow. The flow to be completed. Allow it. Don't be gentle. Let the flow out.

Until. Until the sound comes out. It's going to be a problem. God. The system must be completed. It starts with the heart. And the confession is made.

And he said. When the confession is made. You don't stay where you are. It's a launching pad. It launches you all. It catapults you onto salvation.

Yes. Your confessions are not. Just sayings. No. They are transactional. Yes.

They are sometimes even weapons. Yes. What you say. Yes. What you say. It's a spiritual.

Powerful spiritual weapon. Yes. Yes. Yes. You can be quiet.

[16:52] Yes. What sayeth it? Yes. What does the system demand? Yes. You are too quiet. Yes. Amen. Shut up. There are people who have spoken themselves out of hospital.

Because they felt like no. There was an agreement in their heart. And others too. They have a conviction in their heart. But. Then they allow the enemy to convince them.

Maybe it's just your thinking. Anytime you feel like it's just your thinking. All you have to do is. See if you can find a scripture that agrees with you.

It's that by the mouth of two or three witnesses. Let the matter be established. By the mouth of three. Two or three.

Not one. You alone. Jesus said my witness is the one who sent me. He gives. So you always need a witness. For spiritual transactions to take place. By the mouth of two or three witnesses.

[17:56] Every word shall be established. So sometimes. When you feel. Oh maybe it's my mind. Maybe it's my mind. Look for a confirmation from God's word.

And already there are times too. You have a. You see it in the word. For instance. You want to start this business. You want to. And take this venture.

But you are not sure. You are afraid. You feel like maybe this is what God wants you to do.

Sometimes. A confirmation can jump to you during a preaching. During the preaching. It can jump.

And there are times you are reading your Bible. And it can. Something can be very clear. You just know.

You just know. There are times. Others will read it. They won't see what you saw. But you saw what you cannot deny. Oh you didn't hear what I said.

Somebody can read the same text. And never saw what you saw. But you saw what you can deny.

You know something has jumped out to you. And sometimes you might not have even enough words.

[18:56] To articulate what you. The convictions you know God is talking to you about. I'm not talking about private interpretation. You have a dream. And then it's just.

Does he agree with the rest? Analogia scriptura. Does he agree? Is it consistent with the system of God? So now back.

He said what's he at it? The word is in your mouth. There's some things you have to speak out about. Find a scripture. That your heart agrees with.

Concerning the health situation. Concerning that marriage. Concerning that confusion on your mind. Concerning the situation at hand. Find a scripture. That resonates with your spirit. And speak out.

In the name of Jesus. You have said in your word. You will do a new thing. I prophesy into my life.

My marriage. I prophesy into my life. My business. I prophesy into my life. My liberty.

[19:52] My deliverance. I prophesy into my life. In Jesus name. In Proverbs chapter 18 verse 10. The Bible says that. Cardassia higher. The name of the Lord.

Is a strong tower. The righteous run into it. And they are saved. What does that mean? In Psalm 63. Say hear my cry.

Oh Lord. I turn on to my prayer. From the ends of the earth. Will I cry to you. When my heart is overwhelmed. Lead me to the rock. That is higher. For thou have been a shelter for me.

A strong tower from my enemies. So then God is a refuge. In times of crisis. When something rises against you.

When things come up against you. He says that many there be that say of me. There is no help for him in God. When the storms rise up against you. Listen.

[20 : 50] There is a place you can run to for refuge. There is a place you can go to. Listen. Listen. Let's say God forbid. You are driving on the road. And you see some vagabonds.

They are driving after you. And you can tell they want to. Cause damage to your car. Or do something. You quickly find. Drive towards the police station.

Or you find somewhere. Where there are a lot of soldiers. Or there are a lot of. You know. Or there is a lot of light. Or then you. When something is after you. The immediate thing is. You look for a place of refuge.

Now what am I trying to say. On the grounds of confession. There are things going on in your life. That in this place of. We said the righteous. The name of the Lord is a strong tower. The righteous run into.

Listen. What is bothering you. Run to God with it. Tell God about it. Tonight. You want to run to God. You want to report. Ah. You want to report a matter to God.

[21 : 46] Kababa. Shahaya. You want to report a matter to God. Oh God. Oh God. Turn my captivity round. See. Bible says that. They were in the storm. They were in the sea.

And the great storm came. And Jesus was in the boat. They ran to Jesus. Master. Master. Karek know that. They spoke it. They woke him up. Take an action by speaking.

We have come here. I don't know what you are going through. I don't know what is fighting you. But I believe there is power here. I believe there is power here. For whoever shall call on the name of the Lord shall be saved.

God is God. He said. What says this? What does the system demand? That if you shall open your mouth. Believe in your heart. And speak it out. The word that we preach.

It is near you. The word of faith. It's in your mouth. You can be quiet. Run to God and speak it. Run to God. Thank you for listening to this message by David Entry.
