If you are not in the will of God or doing the will of God, you are wasting. You are wasting if you are not doing the work or the will of God.

And Jesus said, my food is to do the work of God.

Jesus said, I must work. The works of him who sent me whilst his day for the night comes when no man can work.

[1 : 08] John chapter 9 verse 4. I must work. Anyone who is not in the will of God is wasting.

If you become a Christian as well and you are not a useful person in God's sense, what do I mean by useful person?

Please hear me and hear me well. There's only one thing God is doing. When people tell you, but if there is God, why are so many people suffering?

Tell them that God has something to do. Why? If God doesn't care, he's busy. You mean he doesn't care?

But you two don't care. Oh, but I can't do anything. So what makes you think he can do anything? Oh, but God is God. He should have stopped you when you were gossiping.

[2 : 16] If he didn't stop you, that means that he doesn't just get into people's business anyhow. So if you are asking about the sovereignty of God or you are talking about the omnipotence of God and God has the right to do anything, you should start thinking about yourself.

Why didn't he do something against you? When you were doing wrong. You did wrong and you knew nothing would happen. And now you are asking the one who didn't do anything about you. That why is he not doing anything about somebody? The cheek of it. Hypocrite. Double standards. You use one standard to judge others and one to judge yourself. Bible says that because when they knew God, Romans chapter 1, they were not thankful.

God gave them up. They were not thankful. They were not thankful. Romans chapter 1 from verse 20.

[3 : 28] Verse 23. Verse 23. Verse 22. For since the creation of the world, his invisible attributes are clearly seen. Being understood. Verse 23. And changed the glory of the incorruptible God.

Verse 22, sorry. professing to be wise they became fools when people are thinking that they are wise they were projecting themselves as wise but they became fools you are not wise outside of God professing to be wise they became fools and changed the glory of the incorruptible God into an image made like corruptible man it's rather than 21 because although they knew God they did not glorify him as God nor were they thankful but their foolish hearts were darkened professing to be wise start from 20 for since the creation of the world his invisible attributes are clearly seen being understood by the things that are made even his eternal power and Godhead so that they are without excuse you are without excuse if you say I didn't know no one can ever stand before God and never knew God exists you are without excuse why?

because because when God created man he gave everybody not only five senses but there are other senses that are not physical they are kind of metaphysical senses one of such senses is called conscience or morals no one sometimes when somebody is doing something wrong you just deep in your heart you know this is wrong I was told some experiment was carried out before I think toddlers and one is like puppy lion you know the what do you put your hand in and you play puppet puppet lion yeah puppet lion and and the rabbit and the lion the two no I think two lions and two

lions and one rabbit and the rabbit one scenario the rabbit had some need and one lion came and took it and it's like hurt the rabbit and then they did another scene where the other lion different color the rabbit was in problem

I came to help the lion even the children know that no this lion is good this one is bad lion you don't have to teach it's deep inside knowing between right and wrong it's inbuilt by nature nature teaches you that some things are not right it's not what the government says nature teaches you deep in your heart you know that what you are saying about that girl you shouldn't say it deep in your heart you know what you are doing to that guy you shouldn't do it deep in your heart you knew it you knew it conscious conscience is always preaching to you from inside so God has put a preacher man inside you to be preaching to you so you can't claim you didn't know it's called conscience so in Romans chapter 2 it says they are conscience verse 14 and 15 so they are conscience either excusing or accusing them for when Gentiles who do not have the law by nature they didn't have the law of God it wasn't given to them by nature do the things in the law so those who didn't have the law if by nature they do the things in the law these although not having the law are a law to themselves who show the work of the law written in their hearts their conscience also bearing witness their work of the law is written there are certain ethical codes that are written from birth sometimes you tell a certain child took their mother's mobile phone and was standing by the toilet and look at mommy's face mommy said what you gonna do it's a child two years old but they know because there's a certain inbuilt system is inside you it's an inbuilt rule system that will preach to you that you can't do this you can't say that no come on you can't do that what happens as you grow in a certain environment society can begin to stifle it your exposure can suppress it so now it gets to a time like those foolish boys who stab you are you are stabbing and you don't feel anything you are having fun you are doing and having fun because something has stifled their conscience but the conscience will tell you you can't do that you can't do that it's not what the pastor is saying but you have another pastor there's a preacher inside you telling you you can't sleep with them you can't sleep with her she's your sister you can't sleep with her you can't sleep with her something is telling you you can't do that even though nobody will get to know but you know you can't do that God says that they are conscious read verse 15 who show the work of the law written in their hearts their conscience also bearing witness and between themselves their thoughts accusing or else executing them excusing them their conscience accusing or excusing them so sometimes your conscience is clear or your conscience will be accusing you people will be clapping for you but your conscience is accusing you people may not know what's going on inside you I had a story of a certain house that was burning in America the house caught fire burning burning and there's a man who lives in the house and a woman ran out in her I think 90 or whatever it was burning fire fire brigade have come they've called the place off so when the woman came out she remembers my baby she's crying my baby so she decided

[10:00] I'm going to go she wants to go but because she has to save her baby in the room my baby my baby but they said it's too dangerous you can't go in my baby no you can't my baby and they restrained her and then there was a man who came the man was going excuse where are you going I'm going they tried to restrict the man the man broke and then ran into the building and then everybody was watching what's going on this guy he'll die it's too much it's dangerous and then after about five minutes the guy emerged from the smoke like this with something bundled in his chest and so when people saw him come everybody started clapping oh he saved the child when he called they said where is he oh no it's my money I went to collect excuse me listen that's even another issue if he had died in the process he would have gone down in history as a hero trying to save a child trying to save a child but him that's not what his intentions were is it possible people are clapping for you for the wrong thing they don't know about but you know you know your conscience your conscience

Moses they were testing in the wilderness and God said and God said and God said strike speak to the rock for water to come and Moses went he was upset with the people he took the rod and he and water started coming and the people started clapping go Moses go Moses go Moses go more go more go more go more go more they were rejoicing they were because Moses is a powerful man of God he always did some strange miracles and see Moses had done it again but God said you did that when I told you to speak you hit the rock because of what you have done you will not go to the promised land so you see men were clapping for him but God has given him thumbs down so the preacher in you God puts him in you to keep talking to you when you are alone he's talking to you

when you are watching things he's talking to you when you are playing with yourself he's talking to you he's talking to you

I may not be there but the preacher man is inside you he's moving everywhere you go he's with you when you are gossiping and lying on somebody lying against somebody he's talking to you he's talking to you he's right there they are conscious either excusing them or accusing them so one God has installed what is called conscience and then other thing the senses metaphysical senses the other metaphysical sense God has put in us what's the first one the second one is reason reason reason you can reason and tell that ah 2 plus 2 is what 4 you didn't know that one too did you have to think about 2 plus 2 somebody say 1 8 plus 15 23 23 somebody say 16 it's getting serious but hear me education is to help you use your reasoning reasoning that's why it's bizarre absurd absurd preposterous for you for you to say

I am now using my reasoning so much that you say there's no God because you know what God did he he built himself into creation and then he put reasoning into you so that if you can think a little bit it's so obvious that nothing rise to your feet please rise to your feet rise to your feet area now look at the different hairstyles I thought all hairs are like this but you were not born with brown hair were you how come your hair is like how come yours do you think they woke up when they wake up in the morning the hair becomes like that by itself if you can think a little bit and have reason you know that this it was styled like this this was styled like this this was somebody styled it that's that's the power of reason the power of reason tells you nothing just can be without anyone being behind it that's the power of reason so how come you have become so reasonable that you can't even see the basic reason and say that everybody appeared here by accident somebody went to

I don't know how many of you have been to Dubai but someone went to Dubai and said pastor the place is so nice they have actually created an island the high rise even go to Canary Wolf you think the buildings came because one day there was fighting during the second world war and one of the bombs of Hitler hit the place and we had Canary Wolf did you understand that how did you get the Oxford dictionary somebody threw a bomb into a printing press and an Oxford dictionary appeared and yet we call this academic exercise how pathetic because we do not want to admit God we have to find every means to explain him away godless generation who God will forsake the worst thing that can happen to a people is when God leaves them on their own and they begin to make laws that can destroy themselves they begin to make laws that will say that a father can marry his own daughter human beings laws are passed by human beings the only law that all of us are subject to is the law of God no man wrote it no man can change it over 2000 years it's still valid listen the old testament was written 2000 years before Jesus came 2000

[16:53] Jesus has come and gone 2000 years so over 4000 years and there's nothing that is contradictory in what was written the Jews are richer than any group of people because they live by it they invent more than any do you know where the Jews are Israel is a desert land but the best agricultural products produce come from Israel how how explain it to me how you can't walk with God and go under I know some people are saying why is it that there are so many poor people in the church the Bible said not many wise not many noble you can't come in as poor but you won't stay poor you won't stay poor nobody comes to Christ and remains the same nobody comes to Christ some of you sitting here who are now so much deep in church look at what you used to be but now you are so holy you are so amazing you are speaking in tongues who told you

God does not change life who told you you stay the same when you come to Jesus when you are in Jesus your story changes and I'm happy to announce to somebody that somebody is having a change of story you are having a change of story oh come on if you believe in lift your right hand and shout amen you are having a change of story don't don't let anyone look down on you because you are reaching out to God it's just a matter of time we see who's on the right side of history so God has put conscience and reason so you are not without you can't say I did not know reason should tell you that you didn't just appear sometimes you had dreams and things happening and you are wondering wow reason alone should tell you there's something beyond how come that when the pastor was speaking he was just looking at your face like he knew you you were the one he's talking to reason should tell you God is trying to tell you something reason how come the pastor was talking about what we were just discussing that's exactly what

I was discussing but he wasn't there how did he know he can't know because a natural person can't know reason to tell you that God knows you God knows you and it's possible that God is trying to tell you something but it's also possible that you don't want to listen and it's also possible that very

soon he'll give up on you have it your way go have it your way because when they knew God they didn't glorify him as God neither were they thankful so God also gave them up have it your way and now suddenly all kinds of vile desires a young man the woman you want to sleep with is your mother God has given up on you you find your own sister you find your own brother so attractive it's a sign Satan has taken over because something has hit you are not normal it's not normal how can you find your mother attractive your own brother is the one you want to sleep with and you just don't know why you can't just hold yourself back because something is drawing you so strong it's pulling you and even when you are being pulled into destruction you can't say no how miserable many people are being drawn into perdition and destruction and yet they are like slaves they can't say no you can't say no you are trying to say no but it doesn't work because you are not in charge something else has taken over you something else you can't say spiritual realm is not real psychology cannot explain everything medicine cannot explain everything every sickness there are things that are beyond human ability to handle how can you fight a spirit with a gun hallelujah god has built reason into you don't use it to save the devil is it not interesting how some people sometimes they think they know so much about all this church thing i've read about shintoism i've read about buddhism i've read about islam i've read about jehovah lishness i've read about mormonism i've read about sikhism and i've practiced i've practiced new age and i'm into yoga yoga yoga yoga yoga and i'm now spiritually awakened aligned i'm aligned to the forces of look at how miserable you are i'm spiritual and yet you're always masturbating spiritual but pornography is killing you you can't control your small body and yet you are spiritual boy i'm here to tell you you are not in charge something else is in charge of your life and until you learn how to submit to jesus you are in bondage you are a prisoner you are not free for he who the son says free is free what makes you say what i'm saying because i know you are not free i am it's just a front you have a front but you are not free it's a makeup never forget about the other metaphysical senses most of the time all we use is just our five natural senses is just to help you stay safe your five natural senses on earth but those two metaphysical senses i mentioned is to help you escape hell fire help you escape hell fire and the greatest of all senses is the spiritual sense when you can have a relationship with god god speaks to you you know he spoke to me you speak to him and things happen you have a relationship you have the life the life of god zoe you have the life of god you have the life of god you look ordinary on the outside but there's something dynamic on your inside you when you pass it's not only you who have passed you have passed with divinity you are a carrier of divinity what religion can give you that religion doesn't do that religion makes you debased religion makes you put you at your worst i'm not talking about religion i'm not talking about religion look at the religious people how sad they are they are not free religious people religion is man's way of trying to get to god while jesus is immanuel god coming to be with us they are two different things so there are people who are christians but they are not in christ because their faith their religion is their christian religion i can wear track sheets and it doesn't spoil anything i can wear i don't need to wear castle i don't know anything this is the same keyboard we buy from town they will sell it for nightclub or whatever so it's not what is on the outside but it's what is inside us what is inside us what is inside us and some of you the enemy will rise up to try and stop you because if he doesn't stop you you are bringing freedom into your family and so when you become born again you begin to take this christian seos satan will begin to panic so he has to use any means whether family friends foe or adversary to attack you and what works most is people who you know genuinely care about you they care about you but they don't know what you found what you got they don't got it you are in the light you found christ what they know is bible stories it's different you know bible stories doesn't mean you know christ no you don't know god oh you know i've been through the bible several times yeah you went through the bible the bible never went through you jesus said you want to kill me and yet you said you are abraham's sons or mooses's disciple mooses wrote about me if you are genuinely disciples of mooses you would have because roses wrote about me how come i've come you want to kill me it's because you are not sons of god you are not looking for god god if you are looking for god and god were your father you would accept me because i came from god natural man cannot understand god so people out of arrogance and pride and religiosity say things like i've been in church longer than you show me your fruits show me your fruits you are just religious show me your fruits you know how much i've been praying for you and today now you have gone to some church and you are telling me you know how i can pray how i can pray yeah anybody muslims pray buddhists pray everybody anybody i talk can pray but who you are praying to is what determines what prayer it is you're just telling me you are

praying but you don't know the god you are praying to you don't know him i've lived with you many years and you don't know him i just can't tell you because of respect but i know you don't know him i know you don't know him you have a little boy told the the mom one day asked mom mom who is in holy bible so i said whose book is this and then mom said that's god's book and he left it after about four weeks or five weeks one day the boy came to mom because he's dusty lying he said mom if why don't you go and give god's book back to him why are we keeping it here why are we keeping it here because you don't read it you don't use it the point i'm just making is that when you choose to serve god people who are close to you satan can't use them to they are not satan they are not bad you must be able to draw the line between where normal caring activities stop and spirituality spiritual understanding illumination insight and spiritual sense kicks in because you'll be operating by spiritual sense and it does not matter how well meaning somebody is they don't get it yeah peter said you are the son of god and jesus said i'm going to die he said no you can't go and die god forbid die you should die he said satan get behind me peter was not satan but satan took advantage of peter's natural caring about human things because why should a misera die jesus you can't die no no we have to protect you was it not peter who said i will die with you after jesus told luke after 22 after jesus told peter that satan has desired to sift you like wheat verse 31 verse 32 he says the bath pray for you die of fate when you are converted save your brothers the next moment jesus started telling them he's going to die and you jerusalem and peter said if everybody forsakes you i will die with you i will not only i will die with you verse 33 and 34 read it but he said to him lord i am ready to go with you both to prison and to death yes then he said i tell you peter the rooster shall not crow this day before you will deny three times normally will crow early morning around 5 a.m he said before 5 a.m we are they are talking about this around in the evening evening they were having this discussion peter said i will go into prison with you and even die with you jesus said i'm telling you that you don't know what you're talking about by 5 a.m you have denied me three times already three times you say i don't know this man the one who said you die with me he will die for me he will go to prison

[31 : 33] for me so peter was advising jesus don't go and die because you are the messiah you can't die jesus said get behind me satan for you do not seek the things that are of god by you are thinking about things that men are concerned about men are concerned about some basic things you can't walk with god and be stranded in life god bless you for listening to this message to hear more from david entry follow him on twitter facebook instagram and youtube and visit www.karis.org for videos and upcoming events remember be a doer of the word and not just a hearer
