Father, we thank you for the privilege to hear your word. We pray that speak to us and change our lives. Give us an exposure to yourself, that our lives will be the same again.

Lord, inspire the despondent. Bring new life into people's situations, into death situations.

Lord, save the lost, convict the sinning, and heal the sick and glorify your name. In Jesus' name. Someone who believes, shout amen.

[1 : 25] Amen. Amen. All right. You know what? Last Sunday, there was a message on my heart, but thank God for the life of Pastor Hu. it was a real blessing she my friend my friend sent me a text message from America he said I listened to Pastor Wu's message it blessed me it has changed my life from America so that we can try and get it and listen to it there have been so many messages on my heart you need to hear from God to know what to preach because it may be good but it may not be God so you need to hear from God let me put it this way how would I know what you need do I live with you I don't live with you so if I give you my message I'll miss I'll disturb you and I'll waste your time but you need a message from God which you know that this one God spoke to me

God spoke to me that is why we are here we are not here you see I can't wait for Easter Easter I'm going to be preaching on something the Easter message is likely to be come to him within the veil and outside the camp behind the veil or within the veil behind the veil and outside the camp I can't wait for Easter Friday and Easter Sunday behind the veil and outside the camp but for now I was tempted I felt like preach on the three levels or the three aspects of the high priestly role of Christ or I felt like teach on Melchizedek or I felt like teach on running the race somebody said all of them you know thinking about teach on the glory

Bible says he's also able to save to the uttermost seeing that he liberates to make intercession Hebrews chapter 7 verse 25 he maketh intercession speaking about the glory of God because it says that that he may leave many sons to glory but for your information this morning as I prayed I had the witness in my spirit and I know I'm not wrong to teach on the just shall live by faith shout hallelujah shout the just shall live by faith one more time the just shall live I can't hear you by faith by faith almost almost every time I have to do this a little bit of you know I don't know how many of you have flown in a plane before travel in a plane normally when before the takes off the attendants one of them will come and tell you some things they tell you all that before so that so that you don't miss out on the flight or you don't because it's a flight but there are stuff inside the flight for you if you want to watch a movie they will show you there there's earphones there put it there you can't say you need loudspeakers to watch your own because in your room that's how it is things like that the same way when we come to church every now and then every now and then it's when we gather like this normally it's good to show people health and safety or house keeping so when you need toilet they show you before you enter here it's just on the left or the right and things like that in the event of images you can see fire exit sign you go out of here everything is in place but one thing people don't know is you come into church and sit down like you have come to a party or sit down like you have gone to a cinema when you go to a cinema you don't need to shout you are free to cry and scream depending on the kind of movie but you don't need to shout at best you can eat popcorn and have some coke and just watch them entertain you in church it's not like that you come to collect so what does that mean that means that when God's word is being taught anything that you feel that this applies to me you don't shut your mouth you open your mouth and say amen or you open your mouth and say yes you open your mouth and shout hallelujah and as you say it it's beginning to happen to you okay okay okay housekeeping spiritual housekeeping

Bible says God said God created the heavens and the earth and there was chaos and God said something must change God knew something must change but nothing changed until God said so things don't change until you speak so when you have encounters with God he always speaks to you and you speak it out and when you speak out you see systems have been designed to respond to what you say we live in a voice activated a word activated world what you say is what happens to you so if you say I am blessed you are going to have it if you show now watch this watch this watch this watch this you don't have to say it because what you say doesn't affect the one behind next to you it is your own choice what you say is what you get you don't have to say it but someone say I am blessed say I am blessed say I am blessed there was a time there was this man of God was on a on a plane and there was serious turbulence and one of the engines failed two engines one failed in Nigeria and the plane began to lose height at a at a very fast rate it was going down everyone was scared people started screaming oh hey we are dead and there was this man of God at Bishop Benson in Dahosa he was on the plane he got up and said everybody keep quiet

I am here this plane is not crashing we are coming pilots move then the plane stabilized and they landed safely why if he had kept quiet he had to speak and issue out a command speak sir I am blessed sir I am blessed you don't have to feel like you are blessed you don't have to feel like everything is okay you just have to know that you are blessed and sir I am blessed sir I am blessed please be seated in the book of in the book of Galatians chapter 3 verse 11 let's get into the text with me I feel like preaching Galatians chapter 3 verse 11 somebody is about to watch this somebody is about to go to the hospital this week and find out that the sickness has been cleared out of your body if you have a medical appointment

[9 : 21] I am telling you that when you go you shall hear good news something has changed something has changed something has changed in the name of Jesus shout amen you are free to speak and shout anytime you feel that chatter Galatians chapter 3 verse 11 have you found it alright we are all going to read it from our Bibles if you don't have a Bible just stretch your neck and read from somebody else's Bible but make sure you are reading it it will do you good hallelujah Galatians chapter 3 verse 11 are you there let's read let's go but that no man is justified by the law in the sight of God it is evident for the just shall live life one more time okay now read it for yourself louder read it again let's go shout the just shall live by faith

I thought I heard you shout it I believe you can shout it even louder ladies can I hear you say it I believe it's working for you can I hear the man can I hear the man can I hear the man again everybody the just shall live by faith the just shall live by faith this is one of four times it's said in scripture it's said in Habakkuk chapter 2 verse 4 the just shall live by his faith it's said in Romans chapter 1 verse 17 the just shall live by his faith it's said in Galatians chapter 3 verse 11 just shall live by his faith and he said in Hebrews chapter 10 verse 38 the just shall live by faith four times in scriptures it is repeated it is said the just shall live by faith both in the

Old Testament and three times in the New Testament three times in the New Testament four times it said the just shall live by faith now for us to be able to understand it we have to first of all find out who what does the Bible mean by the just because if we know who the Bible means by it's referring to us the just then we can safely conclude that that just the Bible says lives by faith and the scripture you just read you find out it says in Galatians chapter three verse eleven it said that what did I say what did I say Jesus no it says the point

I'm making is that no man say no man say no one no man no one nobody the same no man see your statement no man is justified where no no where in his sight so long as God is concerned when he's dealing when you appear before him he said no do this don't do that do this don't do that doesn't justify you because there is not no do this or don't do that that you can do this and not do that so much that God says now you got it so no man can ever be justified in maybe with men you are fine because they don't really know you maybe you can even have an exaggerated opinion of yourself you know sometimes you live with people and they think they are very smart especially when they are not grown yet children think they are smarter than their parents most of the time most of the time they took their sweets they hid it in their pocket they didn't realize that it is showing so so but some of you here when you were children you were smarter than belardine i'll show you why i said that didn't your parents think as for you you could never do something and you were saying in your head they don't know you your mother was fighting to defend you and you are saying mom yeah i don't know why i didn't do it but you know that in her sight you look okay you were justified in your mother's sight you were justified in your father's sight you were justified in your girlfriend's sight you remember she believed you didn't have a girlfriend she believed it hey you remember you told her you bought a jaguar and she believed it because she thought that mercedes benz was yours she didn't know it she believed you you were justified in his sight hey he he didn't know that the eyelashes were not your own he didn't know that he thought it was your natural hair hey it is not your hair mercy he didn't know he didn't know that that your face actually the color is different so in his sight you were just the person he's been praying for there are people here who went to court and you were you are not found guilty but you knew in the sight of the court you find in the sight of the judge you seem to be fine so you look justified but you know the good news still doesn't matter because before us you are justified but

Bible says that that no one is justified by the law in his sight is evident you'll be deceived and deluded to think that you can trick God into accepting you he said the fact that no man is justified by the law the law means you have ticked boxes you have done this you have behaved well you have not behaved well he said no one because everybody has behaved funny at the point in time we don't know where you were last night but you know he knows see what I'm saying some of some of us are sitting here and we the one sitting here you wouldn't know that you are remembering the pornographic images you saw no one knows that but guess what he knows this is what

[17 : 55] I just like about God that in spite of what he knows about us he never writes us off God God never writes any off or anybody out never never said Bible puts it this way he said that whilst we were yet sinners God commended his love he demonstrated his love towards us in this way that while we the us who he demonstrated his love to whilst we were yet sinners Christ died for us we didn't have to stop sinning he died for us whilst we were still sinning whilst we were still going wrong he said Lord have mercy when we were killing him on the cross he said Father forgive them Father forgive them Father forgive them shout I am forgiving I am forgiven because of Christ that no man is justified in his sight is evident is clear you must be mentally so unwell to not notice that that no man can you rise your feet isn't this what color is this must we bring special equipment to come and find out it's evident that the guy is right in right time all right thank you so he said it is evident that no man say no man or no one is justified by the law stop trying to do for

God to accept you it doesn't take you anywhere I'm trying to do I'm trying to stop this I'm trying to stop that I'm trying to stop that the things you are not stopping is killing you no God you go for somebody's husband who is going to suffer the wife will curse you suddenly you realize that your intestines are getting rotten they said you have cancer of the nails or cancer of the hair or something so as for God the bad things we do because everybody is naturally bad no no think about yourself if you find out what the guy is saying is true just that we don't know you by the way you look nice we know that there is a problem with you that no man is justified in his sight by the law is evident then in the next statement he said because for

I feel like preaching watch this he said that no man is justified in his sight by the law is evident because if no man if no man is justified by the law or by the thing they do then that means that no one can be justified that means there's no one who is a just person before him no one is just enough no but we also know that in God's economy God's program and in God's kingdom there are people who are just so now how are you saying so alright alright alright let's that that that that that no one can sit on the seat this side okay on the front roll unless he's over 150 years old but then you are wondering but Ebenezer is there so you are wondering but so how so if no one it means that no one really can be there so why is that some people are there he said for they are there by pastor's appointment so they are being there it's coming not from them but it's coming from something that is outside of them for you to be there it must come from outside you in theological terms it's called righteousness estral nose righteousness that is outside yourself

I thought about this I thought this it's called synthetic righteousness synthetic righteousness so you have been given righteousness that is not from you it has been given to you it has just been given now let me go back quickly it says that that no one is justified in his sight is evident for the people you see him with him who are called just okay now is there a connection between just and justified the difference between just or the connection between just and justified is you are when you are justified you become just so a justified person is what the just the unjustified person is unjust so justified means that you have been cleared they gave you the ticket pass quality control fine cleared okay you are in they check your ticket is valid in bounces at the gate check your ticket okay go check your ticket go let me tell you this story this is a quick one a gentleman was there was a plane from

UK to Heathrow to Lagos and there was this gentleman his ticket was economy economy he bought economy ticket when he went inside he just went first class and sat there they said sir sir please this is not your city you are supposed to be over there for where I have come here already I'm sitting down I'm not going anywhere they said you have to go so they did everything he said the pilot came to talk the captain came to talk to him he said I'm not going forget it they went to bring security officials they said I'm not going they said let's bring the police you can't force me they had to take off and just creating a problem so there was a gentleman who was on a flight and he said don't worry sir you guys leave him for me

[24 : 52] I'll talk to him he went and whispered something into the guy's ears soon as he whispered the guy took his back took everything got up and went and sat economy what so everybody the pilot the captain the air everybody was surprised what the security what did you tell this man and he got up from where he said he said he's not going 30 minutes he said I just told him that this part of the plane is going to Abuja the other one is going to Lagos the other part is going to Lagos that's why he got up because he was going to Lagos he was not justified to sit in first class he was justified to be on the plane but not to be on first class when he comes to first class he's not justified he's not qualified unjust he has to get up now to be justified means to be made just now he says that you don't get made just because you are doing some things you get made just even though no one can be justified by doings in the sight of

God Galatians 3 11 for that no man is justified according to the law in the sight of God is evident how so why why are the just doing that why did they get just for the just shall live by faith so the just the only way you become justified is by putting your faith in Christ is what makes you justified watch this watch this is what makes you justified and keeps you justified in God's sight now once you are my son and I fattened you into the world nothing can change that condition but you know that you can be a son and miss out on your father's inheritance your father's inheritance can be given to your step brother your father's inheritance can be given to your cousins because you fought against your father and he vowed that he has disowned you even though you are still biologically a son you miss your position you miss what was supposed to be quick to you you miss your allotment you miss your right your portion why because you your fellowship with dad was affected even though your sonship was still valid you become a son of

God you become a child of God by faith not because you went to church but because you believe in Jesus that's what makes you a Christian stop telling me my mother used to go to church so I'm a Christian give me a break from that stop stop stop stop stop telling me I grew up in a Christian family so I'm a Christian growing out in a house of shepherds doesn't make you a shepherd or growing house in a lion doesn't make you a lion why did I say that you can live with cats and dogs it never changes you into a dog and doesn't change them into human beings you know why because that thing is fundamentally a nature issue a nature issue you cannot be nurtured to become a son of Queen Elizabeth how can they nurture you you can be made a citizen you can naturalize a citizen but you can't be born a Chinese and then as you grow up automatically the thing changes and you become a

British you have to that's why you go through processes there are people here more than 70% of you here never went through any naturalization process program by some of you rest you have to naturalize because you are not one of us initially you are born outside am I communicating at all and so it says they just shall live by faith in other words it's your faith in Jesus Christ watch this faith not your feeling not how you feel about Christ no I don't like this I like it doesn't matter what you like what you don't like doesn't matter you have to realize that you don't really matter that much it's true it's true when it comes to their brothers even David Cameron it matters just about policies but if in the long so they can't he will go where is my great he should make policies he should go long time the world is still going on very soon look where is he gone gone long time but the world is still going on are you getting what I'm saying and so you are just one it doesn't matter your education it doesn't matter your connections your contacts your job your shoes sometimes some people come to church and they make the address enter their head because you are wearing a money or primark so we should all bother you drive

BMW and so we should come on give me a break can the BMW drive itself don't you still go to the petrol station the other time I was teaching some guys and I said something I said that it doesn't matter how posh a house is are you aware some of you think back in your palace doesn't have toilet it does think about what I just said that's how frail as human beings we are that's how frail we are as human beings we are that frail you can build the most expensive house you still need a toilet inside there some of you are wearing perfume that will cost about 10,000 pounds tomorrow you have to bath again so relax humble yourself and let God help you let me give you an advice never let your self importance follow you to the presence of

[31 : 32] God has it ever followed you to hospital human beings are always human beings and will remain human beings it is the God factor that determines your value in the realm of the spirit socially you may look valuable because of the brain power you have but spiritually you are comatose if you don't have Christ the just shall live by faith and so we come in by faith and we continue by faith let me talk about shall live shall live is so important because once you are just it means that God has accepted you God is on your side how many of you have heard this scripture before Romans chapter 8 verse 31 he said if God be for us I'm going somewhere now if God so I'm justified and

I'm in I'm in the team of God how come I'm still poor how come I'm still down how come I fall sick how come I'm still jobless how come things are not working how come there are people who are not in Christ people who don't work with God and things seem to be going okay for them and me my marriage is shaky things are not working for me meanwhile God is a God of all grace with God all things are possible why am I still struggling do you know why because the just shall live by faith now what does it mean for you to receive everything of God you have to approach God by faith you have to walk in faith because if you don't live if you don't live you live so living is continuous present continues that's how you do your things you live by faith you think by faith everything about your life is based on what

God's word has said when you live by faith you create the room for God now to become the God he is supposed to be in your life other than that you always have question marks if God is for me why all this why am I sick why the doctor say this why am I not having a wife why am having a husband why all this why all this you be fraught with so many why without an answer because life is generally unfair remember that life is generally unfair if you are waiting for life to be fair for you to have a fun fair you will be fooled because life is generally unfair someone can be a virgin from her mother's womb and married didn't touch anybody's husband didn't do anything wrong and married and can be 50 years old without a child and someone can also be doing all kinds of everything right from the age of 13 doing everything going in and out up and down doing everything and guess what at the age of 19 already has two and anytime she wants just it's like she'll breathe in and babies are coming breathe in and babies are coming breathe in and haven't you seen people who have done everything right and still struggling in life and you know some people who have done everything wrong and man they're making it they're making it life is generally unfair it is not fair that birds do eat worms but they do say the just shall live by faith the point here is for you to enjoy your just the privileges that come with your justification you have to live by faith and as you live by faith you act if it's happening it's happening as you live by faith listen it doesn't matter how powerful your mobile phone is it can be

Samsung is it S7 or 7S S7 or iPhone 6S those are some of the most expensive phones it can be any phone or iPad or iPhone it doesn't matter what it is it does not matter what it is listen to this you can have all the apps on it if you don't charge your batteries you can be in the middle of whatsapp others and the phone will go dead even though the phone is so sophisticated why because you haven't charged the batteries so for your phone to be functional there must always be power in it for you to enjoy your status as the justified there must always be power in your system and the way the power flows is by faith so as a

Christian hey hey hey hey listen it doesn't matter how many times you are going to church it doesn't matter whether you are fasted you are you can say but not believe it you can scream amen and not believe it if you don't engage your faith you can download what God has got for you your faith is the connection point they just shall live by faith some of you are here things haven't been the way they shoot and sometimes it leaves you with a conundrum or a question on your mind why what is it stop asking why and start searching where start searching what do I mean search through the scriptures you find what God has said about you you don't have to have PhD in theology all you have to have is an understanding and so

[38 : 13] I was reading my Bible three days ago and I stumbled across the scripture I think in Luke chapter 24 somewhere 45 it says that and Jesus Christ opened their understanding to understand the scriptures powerful statement so all that they were reading they didn't know it Bible said Luke chapter 24 verse 45 and he opened their understanding and they began to get the scriptures I think it would be nice to read it I read the Bible I read everything I read everything I read everything I read the Bible I read the Hindu scriptures I read this that's why you are that confused you know you are confused man it's true I'm telling you my father was a professor in theology and so what I've got every

Bible in my house Jehovah Witness Bible I've got Jehovah Witness Bible I've got Mormon's Bible I've got SDA Bible I've got Ben Him Bible I've got Marilyn Hakey Bible Joyce Mayer Bible I've got all the Bibles wonderful every time I read I know all the stories in the Bible but look at you it does not the just shall live by Bible knowledge the point I'm making here is if your faith says yes all heaven is at your disposal if you can get your faith but the problem is how do I get my faith to say have you seen the scripture what does it say 45 and then open heed their understanding that they might comprehend the scriptures listen listen brother one of the good things one of the reasons why it's good to come to church watch this don't miss this is so that someone can navigate you through the scriptures i'm an english i'm an english professor it doesn't mean you can understand the scriptures bible said and he opened their understanding that they might comprehend the scriptures that is why you can't toy your life with religion religion is a waste of time it will waste too much of your time it gives you so many activities and responsibilities but no benefits no benefits you get busy busy busy busy busy busy busy and busy condemning others you are like this you are like this you are like this religious spirit religious spirit is always finding faults in people somebody's car has had an accident yeah it's because this morning he didn't say her father you are religious praise the lord and so he opened the understanding now to be able to understand god's word your understanding must be enlightened that's why i was saying listen don't toy your destiny with church or the church you go must be a church that can teach you god's word it must be a church that can teach you god's word it's very important the church you attend must be a church that can teach you god's word it's very important amen i grew up in church was in church when i was born you know when i was born when i was born they put cross chain in my neck gold cross chain in my neck yes that's how religious my parents were i was a master in secondary school boarding house we normally go with some cereal so when you run out of cereal you have to believe god and just eat from the dining hall some of my mass service the boys i never did that because i knew one day i have to preach about it some of the guys they would go to the vestry where we keep the wine the communion everything and then the wafers for communion the wafers they pour it in a bowl add milk like conflux and now yet we finish drinking and this is how we always work one service and some of you used to go for communion when you are going for communion you go like an angel the body and blood of

Christ amen you are planning for somebody wife you are planning for somebody husband and that's all religion pure religion when they ask you to watch one scripture you will be struggling all you say is John 316 Psalm 23 or John 1010 or John 1135 or John 1030 I am the father I one that's all that's all that's all you know every day I read Psalm 91 every day when I read the Psalms do you understand the Psalms you need the word you have in your heart is the word you have in your heart that's what determines your rating before God your rating before God is determined by the word you have in your heart the just shall live by faith from today the story around your life is going to change

I said the story around your life is going to change the story around your life is going to change in the name of Jesus please sit down sit down quickly next few minutes how do you live by faith because if the just Bible said I didn't say the Bible said the just shall live by faith and so if you have been justified and yet you are not seeing the results tangible proofs of justification physically physically things are bad your health is deteriorating at an ungodly way rate you are increasingly getting very unhappy and marriage is bad God it's like why damn if you are not seeing you are always asking God please see stop begging

God it's religious God please if you love me no no no that's a waste of time never never go to God and if you love me or most of if you are God if you are really God he won't do it he's no more God he won't do it stop threatening God God if you don't do this I won't go to church again stay at home stay at home stay God if you don't do this now look I'm losing I've lost a lot of money in this business if you don't do me I won't give my time I won't give my time I give offering no no no no the tithe is for you not for God when you give to God it creates the room for him to help you God has never been in need and will never be in need I heard one of God say this and I kind of like it he said God said the cattle on the thousand hill is mine and yet he doesn't eat beef who eat the beef you you eat the beef the cattle on the thousand is

[46 : 19] God doesn't eat the beef you eat it so he is trying to tell you that I can supply you more Philippians said that for God shall supply all watch this let's just do a little bit of reasoning let's rational reasoning let's get into logic okay if he says God shall supply all your needs according to his riches in glory what makes you think that God can get involved in your financial situation what makes you think that God can get involved in your medical needs what makes you think that because listen no no he said God shall God shall supply all your that means that watch this that means he can do something about your situation as long as it falls into the category of a need he said he shall supply all your now so why is it not supplying it boils down to the action and living by faith if you don't live by faith you disconnect the flow you disrupt the flow the flow from

God gets disrupted but this morning into afternoon my assignment is simple to reconnect somebody to the flow of supernatural supplies there are people here who hear this message and your life will change permanently because you know what's going to happen you are going to begin to take steps of faith you are going to begin to take steps of faith you are going to begin to take steps of faith you are going to begin to take steps of faith shout I am blessed quickly how do you live by faith six quickly I'll give it to you one trust God trust God trust God someone say trust God you are too much afraid why do you behave like you don't have

God on your side trust God trust God if someone runs into your car and you have insurance covered you know it will be sorted oh no I'm not going to have a car oh come on your friend don't you have insurance and most of us know the insurance we actually do it because they are under legal obligation God is not under legal obligation but under covenantal obligation there's a difference there's a difference okay contract operates on behavior covenant operates on promise so God is doing because he has promised you not because you have been doing things right and watch this listen to this series God blesses you not because you are tithing God blesses you because you are given by faith two different things two different things you are active by faith your faith changes giving into connection to with heaven your faith changes coming to church into exposing yourself for an encounter your faith so it doesn't matter who is not coming who is coming who is not shouting who is shouting it has no

God squad to do with your life trust God some of us are too fearful too fearful you are too fearful trust God I dare you to trust God so worried about your health so worried about your job so worried about your children so can you go to school with them so why there is a lot you can do don't you know that there is a lot you can do you can choose who is speaking to your children playing with them at school you don't even know them you don't go there you can choose which teacher should be employed in the school even sometimes the school you don't have a bigger say they can tell you that there's no vacancy here what you gonna do trust god you are too much afraid the devil is threatening you with your future he's telling you you'll be sick he's telling you you'll end up in hospital he's telling you you'll be poor he's telling you you'll lose your job the devil does that and he'll show you a lot of false evidence he'll show you some of them are real some taking on particularly

London too many people are living in this country with fear fear tension on the train every month on the train everybody is tensed if you get into a train say hello everybody everybody will look at you some will even feel upset they think there's something wrong with you for being cheerful for being gay that's what the word means I mean gay gay yes when English dictionary the original word gay means happy happy happy happy that's gay happy you get what I mean listen many people are down say antidepressants you are top pharmacist antidepressants in this country what's happening high high demand of antidepressants too many people are depressed and certain like that depressed someone has taken poison someone has killed somebody someone killed the children and wife and then killed himself that one is

[52 : 51] India depression listen the devil can afflict you until you are depressed but once you are depressed he can oppress you that's why he creates so many problems around you that you are down so you will be down the answer to that is trust God what does it mean to trust God know that God is going to do something about it tell someone God is going to help you God will help you listen listen but you don't know the things I've done it's so bad hey hey the just shall live by faith he didn't say that he said it's evident that the law no one can be justified by the law so stop talking about what you did stop talking about let the Lord take care of that let the Lord take care of what you did and the Lord take care of what you supposed to be sometimes some of you the Lord didn't find out it's good for you just keep quiet don't do it again move on move on

I stand here with unmitigated audacity and I tell you even if you have committed abortion in your past seven abortions twenty abortions I stand I tell you that if you want to have children my God can still give you children my son will still give you children show hallelujah hallelujah what I'm trying to say is there is no any justifiable reason why God shouldn't bless you when you have faith faith simply means I trust God they've just told me I've lost my job but guess what I trust God I just lost a lot of my investment but what I woke up feeling severe pains in my ribs but guess what I trust God the man who told me he's going to marry me after I moved out of his house because I said I want to live clean right he said no let's forget about the marriage by what

I trust God listen stop being afraid Bible says that no one of us by worrying can add a cubic to your life worry doesn't add to you it takes from you it robs today of his peace it doesn't do anything for tomorrow it just robs today of his peace tell somebody trust God number two how do you walk by faith take God's word as fair now hallelujah did God say it yes then I'm going to stand on it he said by his stripes I'm healed well doctor said as for this sickness it cannot be healed but he said by his stripes I'm healed which one will you take take more God's where that's fine now the chances for me to have a child is about just 2% the doctors are saying that my sperm count is instead of being over 5 million my own is about 200 5 million you need 24 million 5 million is even low but you need only one sperm seed one to fertilize an egg you don't need all you don't even need 2,000 and if you have about 1 million and the doctor said healthy man must have about 24 million you have 1 million your own is a lot my husband went to the hospital they said he's developing spermatozoz

I don't know what that is there are always wonderful names even the names that sicknesses have got one day I had some pain in my back it was bad it's like someone was following me and stabbing me and I went to the doctors years ago and I'm in pain they said you have got sciatica I said what's that sciatica it sounded very nice sciatica it's like a greek word I like it sciatica I believe they gave me medication strong medications I took one or two I didn't stop I kept preaching lifting those that we need to lift equipments one day I used to have the pain the pain has gone by itself by me walking by faith trusting God I didn't lie I hope excuse me you fall in sick some of you you like just like falling in sick assume nurse you see a little pimple on your nose you fall in sick every little thing

I'm sick I'm sick I'm sick every little and then you you you you whistling it by saying I'm dying I'm dying hey may I tell you something please if you kill yourself by your ways we will not come for your funeral you won't come to your funeral because you killed yourself we won't you better get up and let's live life so listen find find out what God's word has said about you about your finances about your health about your children about your marriage and begin to live it because that is true other things are factual but this one is the truth it's a fact that you are not married but the truth is you will be married I get it so find what

[59 : 01] God's word has said and stand on it listen we blessing your marriage and you crying doesn't guarantee good marriage no it doesn't people marry I was speaking to somebody on the phone the other time he said pastor two weeks after marriage I packed my thing I wanted to leave my house myself my parents came begging don't disgrace the family so marriage and wedding white white it doesn't guarantee it is the Christ in this marriage watch this watch this and your faith is what makes Christ white and she always upset she will be a good woman she will be a good woman she will be a good woman are you getting what I'm saying some of you have destroyed our children with our wares with your wares speak what

God's word is saying he says that the seed of the righteous shall be blessed speak over your child your child is not doing well in school and so what she will do well don't be upset with the child but when they are going to school bless them yesterday my daughter came to me she was trying to draw she likes drawing every now and then and then she couldn't draw she was frustrated she came to cry I said why I can't draw I said go take the pen you are the best artist and I left I came back what she has drawn she has never drawn it was nice find yourself in the word of God find yourself in the word of God and save yourself find yourself find yourself you are here you are here this is not just a book it is your life it is your destiny it is your future find yourself don't be afraid trust God believe the word and it will work for you shout amen

I have six points let me add one more and then we close so number one how do you live by faith trust God I did hear you trust God shout it louder trust God number two trust God trust God then number three hmm disregard contrary evidence disregard Christ told me I am healed and the doctor said there is a lamp in my waist and every time I I I now God said I am healed by faith I received that but I the pain is coming back don't worry just take some paracetamol if you want to but not that you are healed the pain is just a contrary evidence disregard it it will go by itself that's how my sciatica left

I disregarded it Bible says that in Romans chapter 4 verse 19 Abraham when God told Abraham at the age of 100 years you are about to have a child Bible says Abraham did not consider his body he looked at his body he said doesn't matter no did he consider the deadness of Sarah's womb the negative conditions that are challenging what God is about to do for you or that are challenging and defying God's word in your life disregard them and hold on to God's word sometimes you have to look in the face of opposition and say I disregard you I don't fear you God's word is true because you know what the truth is you will be believing for somebody to be praying for you but actually people's prayers are limited people's prayers say one for me when would you start working by faith and say say one for me pray for me pray for me pray for me pray for me now the things I am saying is I'm beginning to define somebody's future when you live by faith it's not for me guess who it's for you because they just shall live by faith they just shall live disregard contrary evidence they told you that ah nowadays it's difficult to start a business to thrive but you know that God has put in your heart start with the go ahead you see the negativity go ahead you see the contrary go ahead go ahead go ahead so hold on to God's word go ahead and and let me add this one and speak the word homologia speak the word

I don't hear homologia speak the word homologia speak the word your silence will authorize the devil your silence will give consent lend credence to what the devil is pursuing but when you speak things begin to change what do you speak not your wishful thinking the word you believe speak it and your life cannot be the same I see somebody's story changing I see somebody's story changing I see somebody's story changing in the name of Jesus in the name of Jesus I profess over your life that goes where will be fulfilled in your life in the name of Jesus I cast sickness out of your life I cast sorrow out of your life I cast disgrace out of your life I cast failure out of your life I cast sorrow out of your life and I release favor
