Preacher: Bro. Ernie Drake

[0 : 00] No sooner than 30 minutes after she left, I had chest pain that would not go away. And I hit the button and the nurse came in there and she said, what's going on?

And I told her, I said, this is funny feeling right here in the middle of my chest. She said, describe it. Funny feeling like that means something.

Tell me what. And I described it. She said, let me check your blood pressure. So she got the cuff and there was a blood pressure monitor and a monitor right over top of me.

I couldn't see because it was behind me and it was screaming about yay big and it showed you heart rate. When they had you hooked up and they had me hooked up and it was just showing all this, what you normally see.

She said, something wrong with this blood pressure cuff. It's not working. Let me get another one. She threw that down. She ran over to the desk and she got another one, put it on there, pumped it up.

[1 : 01] This was not working either. And that was the last thing I remember in that room. Wow. She tells me later that at that time she looked up at the monitor and it was already a straight line all the way across.

And she says, oh no. And I heard that by the time my eyes rolled back my head and I left that room. I literally left that room.

Wow. And where I went, somebody was carrying me and taking me a far off place. And it seemed like it took a while to get there.

But when I did get there, there was the water and all the people that I knew before that have gone before me were over there waving me. Welcome.

Welcome. Waving me in. Welcome. Waving me in. And this whole episode, it just seemed like a couple of hours, maybe an hour and a half.

[2 : 12] I couldn't tell. I didn't have a watch on it and no clocks anywhere. It was just this beautiful place and on the beach. Next on the other side of that water was all these people.

A lot of people. And they were all welcoming me. Come on. We've been waiting. And some of them I recognized. People, family members, friends that went before me.

They were there. Wow. And when I went into the water first, I thought, this water, it just feels like no other water.

This is warm and it's inviting. And before I could get to the shore, everything stopped.

And everything started moving away from me. And I went back up. And I hit that bed. I bounced on that bed when I landed.

[3 : 15] Wow. And the room was full of people doing stuff. I noticed one nurse had a hypodermic needle with a needle about that long. And the other nurse was sticking the little vials on the end of it.

And she was pulling to get another one for that. And I thought, I know where that's going. And the doctor said, everybody hold it. He's back.

I thought, phew. And they all shuffled out of there. And then when the nurse saw that everybody was gone, she came in there and got right in my face.

She says, you went somewhere and I know it because the show was on your face and you are going to tell me about it.

Wow. To this day, I have run into that woman at labs that she works with, getting my lab work done for this and that and whatever. And she said, you been there again?

[4 : 17] I said, no. Next trip. It wasn't permanent. But before I left that hospital, I told her about it. She says, I knew it. I knew it.

I knew it. When I looked up and seen that straight line and your eyes rolled back to my head, a smile come across your face. And I knew you was on your way somewhere. Thank you. Now that, you've heard a near death experience.

I was close to near death that I got at that time. I said, man, I didn't even know. Is that what it is? You know, I guess that's what it is. But it was beautiful.

The water was beautiful. The beach, the sand, the trees, and everything. Everything was beautiful. And everybody looked happy. It was just inviting, just waving me in. Just, oh, we've been waiting. We knew you was coming. Yes. Yeah. Fast forward about five, six years. Then, I had a, I had what I did not know was a stroke.

[5 : 23] We had bought the property next to us and had it rented out. And then when they moved out, we went over there to clean up the kitchen and stuff. And got new. I said, let's go back over to the house and get something to eat.

She said, yeah, I'll fix you some sandwiches and stuff. So we closed up the house. We went back to our house next door. And I sat down and turned the TV on and I'm looking around.

What is going on here? There's a place with the smoke in here. Everything was fuzzy looking.

And I looked at the hallway and there's Joyce. Ernest Wayne Drake. And I told her. And she said, come over and looked at me. And she said, let me call the hospital. Or an ambulance.

One. I said, we'll call the hospital. And they said, don't call an ambulance. And they said, don't call an ambulance. And I said, pour him in the car and get him here because the clock is ticking.

[6 : 25] One time did it start. And she told him as near as she could tell. And we put her in the car and I never, she never breaks the speed limit. She was doing 70 miles an hour running by fast. And I'm like, lost the ability to talk by then so I could tell her to slow her down.

And she was getting it, wasn't it? And I'm like, lost the ability to talk by then so I could tell her to slow her down.

wasn't it and they got me there and make a long story short I overcame that got my voice back got where I could walk again got to go home and had three all together three strokes then let's see three strokes and then I forget what happened right after that well anyway I had I was diabetic for a long time taking insulin I got to the place where I had this injector you dial in the amount just throw the needle away and then the next day you do it again next day you do it again and the doctor had instructions ten units every night before you go to bed so this has been going on for weeks and weeks and weeks and then one night

I get the thing I'm sitting on the side of the bed dialing at ten okay good night and I go to sleep she's watching TV and next thing I know she's shaking me Ernie Ernie Ernie what what's going on did you take a shower and not even dry off as you're soaking wet and the bed's soaking wet what's wet what's going on I had man I was la la land so she calls our daughter-in-law who's a nurse and she says get unhooked from the machine unlock the front door and keep them talking he's about to go in a diabetic coma the ship is about to now and I'll call the ambulance so she called the EMS and they showed up and they put an IV in I got glucose and well I woke up well yada yada yada I go to the doctor the next day and the doctor says let's do a 1 AC see what your average is he comes back with the report on that and he says I don't understand it it don't make sense but your sugar average is normal I said what do you mean he says you're not diabetic and when he said that I remembered on this written healing Lord I should ask for healing on myself but you haven't led me to do it because one of the prerequisites and I'm going to tell you about that in just a minute was that you only do what I show you to do just as do as Jesus did because he wants you to do what he showed us yes they tried to get Jesus to do something that was out of context and he says can't do it

[10 : 26] I only do what my father has shown me wow so they put me in the hospital no I didn't go to the hospital for that what did I go to the hospital for what was oh I was driving to work yeah I had about a 40 minute drive to get to work and when I got to Owensboro which was 17 miles it would go around the bypass head on I-60 out another distance same 17 18 miles and the farther I got the weaker I got and I didn't know what is going on and I I forgot to eat breakfast that's what it is you know this is before I found out I wasn't diabetic anymore God had healed me of diabetes wow at that time but before that I'm thinking well maybe I just did my sugars a little because I didn't eat breakfast and I'm just I got to the last 8 miles

I'm like staring at the taillights in front of me up the road don't hit him but don't lose him and he's probably going the same place I'm going and I said I can't pull off the road and call an ambulance

and somebody will steal everything out of my truck no houses out here in the middle of nowhere you know so when I got to work I dragged myself in to the security office and first thing the guy I was relieving said was Drake what's going on I said I can't stand up now I just totally wiped out and he says you want me to call the plant nurse I said yeah maybe she can do something but he got on the plant wide radio and called for EMS and two nurses show up and there was a crowd at the windows man they wanted to see one of the guards and somebody said what happened you know and they checked my blood pressure and my pulse and everything and she says well you're not working today

I said yeah I need to go home she said you're not going home either call cardiac stat get that ambulance here like right now and at no time the ambulance backed up to the door they just picked me up put me on the gurney threw me in there and that ambulance took off we was doing 85 miles an hour in the hospital when we left that plant my pulse was 27 when they pulled me out of the ambulance when I got to the hospital my pulse was you can and not be dead I'm here to tell and I have a pacemaker they put in almost immediately said your heart was failing from the electrical pathway he said just quit working and he said it didn't happen so I was several weeks in the hospital trying to recuperate enough get my strength back enough where I could get home but through all of that

God had a plan unfolding amen and all I knew was get my health back get back on track get busy I got things to do work blah blah blah etc etc life you know life is busy and then I'm laying in bed one night and I don't know I'm going to assume but spirit filled church as this is this has to have happened to some of y'all the Lord woke me up wide awake just like just like that and started talking to me wow and he says you've been wondering for some time and asking me what the deal is people come to church I got this and that they anoint him give him a prayer cloth lay hands on him pray for him he goes home he comes back next week same thing comes back two weeks later same thing comes back a month later it's the same thing and then just quits coming other people get healed immediately shout all over the church tear the carpet up shout so much and then go home live their life out why why is that and you've been asking well I'm going to show you and I'm going to show you what I expect you to do about it and he showed me a vision of Jesus in the wilderness and two of the apostles sitting over here on the side watching out for him he wanted to be alone just don't get too close to leaving you know you know the scriptures y'all read it haven't you and the devil came and tempted him three times am I right sister three times finally you know three times in full stature

Jesus says that's it it is written thou shalt not tempt the Lord thy God get thee hence and the devil left right then and nowhere in this bible does it say after that event that Lucifer ever came back and tempted him again no thank you write it all down and write it in a book because I want my people who are called by my name to understand this yes so I wrote it Seth has one of the books he's got he's got he's got three of them I was supposed to have brought a box of them I had printed up and I got we got in a hurry and we left I didn't until I seen Seth walk in the door

[16:48] I thought I didn't even pick that box up so but I had three of them and they're they're a small booklet and it will tell about written healing and how we have the power to speak what's in this book here we got the power to say it is written Satan get this illness off of me and get the hints in Jesus name and when I prayed for myself I said and return to me everything you stole and I felt so good it's like somebody dented your car and you demanded them to give you 150 bucks and they handed you 200 all right that's more I get that I get it fixed or that feels good my car fixed that was a feeling I had you're like wow you know you can actually demand stuff of Satan thank you

Lord God never puts illnesses an injury on us let's accept that God doesn't put that stuff on you that is Lucifer's tool he uses to dismay you and keep you down and we have authority over him through grace and we have the authority to tell him to get hints which means you know the way they talk that means to get out of it hit the road that's right so started with that and I'm here to tell you that I cannot heal anybody I never have and never see that I ever will but as just as

Jesus and the father showed things for us to learn from Genesis to where we're at now in demonstrations okay and he showed it in different ways he showed us what to do so I'm going to make a demonstration statement that you'll never forget I want everybody to understand that I do this and I have asked the lord the father if it was okay that I do this he said show my people thank you lord that is the king james bible yes stand on the y'all want to stand up and see my foot on there both of my feet are on that bible thank you as god is my witness I stand on every word that's

I don't care how many translations and how many adulterated bibles they got out there it's awful it's like every day there's another one getting printed up in different languages different wording I don't care they can have that see how far that gets them to the new city I stand off this word and it has never failed and I know that everybody here has key judge body so we can go from there I have delayed the ground work praise god now I did I hope y'all don't throw me out here too soon thank you Lord John 5 19 if y'all want to follow with me verse 19 and 20

Jesus answered then answered Jesus when they besought him and said unto them verily verily I say unto you the son can do nothing of himself but what he seeth the father do for what things soever he doeth these also doeth the son likewise when I had that vision that was one of the first things that God showed me Jesus speaking written word written truth written commandments and now everything that I do I have to do only what the father has shown me now on this written healing [21 : 58] I studied it and I studied it after this vision I studied it the next day and I started making notes a lot of notes looking up a lot of scriptures and I put that book together hadn't published yet at that time but I got it together and Jesus Joyce had been having a problem with RLS how many people know what that is and it's extremely annoying restless leg syndrome try to sleep in the same bed with your wife when she's got RLS you will get less sleep okay and God forgive me for saying that she knows I say it in the right text I put up with it because she's the greatest she's my sweetheart and one night

I was laying there just about asleep and the Lord says now pray for those legs wow you asleep and she was laying there asleep and I just looked over at her and she was just breathing like she does when she was asleep so I put my hands on her head on her shoulders on her back on her legs and when I got to her legs I didn't pray for everything on her body but I was told to pray for that restless leg and I held my hand on her leg and I said Father God I ask you in Jesus name to heal that restless leg syndrome here and now in Jesus name and I went back to sleep didn't wake her up the next morning I asked her I said you slept pretty good she said yeah my legs feel a lot better I didn't have that restless leg when I went to bed it was bothering me but it didn't bother me now and I told her what happened and she says well it's gone it was gone Joyce has it ever returned and which we'll find out here in a moment that her healing was instant it instantly took place about two weeks later one of our song leaders a young man that goes to our church here in Livermore I can never remember his name Peyton the church was having a shouting match everything was moving the music was loud the spirit was high the place was packed out and I look over here and Peyton is on his knees with his hands his head in his hands and I thought well he's praying you know and I look back and the Lord says go pray for Peyton so I'm looking around I heard him clear as a bell I look around where's the prayer words there's Joyce and I don't see Marcy I don't see Liz now what do I do I look back over Peyton Peyton is gone so he must have went out the side door well I go down here to the other side door at the end of the hall and there he is standing there and his wife him and his wife now follow along this is important I'm going to bring something out here you're going to see me and Joyce were the only ones in the house and I prayed healing on her restless leg syndrome and she was instantly healed he has these from time to time and they last and last

I put my hands on his hands because he had them up like this and I said Peyton I'm going to pray like you've not heard before Father God take this migraine from him and heal him of it right now in Jesus name for it is written they shall lay hands on the sick and they shall recover and when I said that I just took a step back and he went he looked at his wife and he looked at me and I said how you feel now baby he said it went away just like him praise God this never happened he had this total puzzled look on his face and that was my cue back down the hallway and went back out in the sanctuary because the

[27 : 24] Lord said so don't stand around because somebody said Ernie healed me yes as God is my witness I have never healed anybody in my life I cannot heal anybody the father does the healing if we ask it in Jesus name and we know this so there's two instances that prove written healing is for us in this generation written healing because you can ask George her healing was instant Peyton his healing was instant as soon as I got sent the last syllable of the sentence out he just he immediately he had this total shock look on his face like what just happened he didn't have to say it

I could see it all! John 14 and 12 verily verily I say unto you he that believeth on me the works that I do shall he do also and greater works than these shall he do because I go to the father now there's

a difference between what was going on when Jesus was here versus after he left he he and he left he said now I go I have to go where is that scripture here

John 16 John 16 and 15 yep John chapter 16 verse 15 all things that the father hath are mine therefore said I that he shall take of mine and shall show it unto you let's go over to verse 23 and in that day ye shall ask me nothing verily verily I say unto you whatsoever ye shall ask the father in my name he will give it to you now that's not just some scripture you kind of you put ten different scriptures together to come up with that's plain that's plain English he will thank you Lord verse 24 hitherto have you asked nothing in my name asking you shall receive that your joy may be filled yes verse 26 at that day ye shall ask in my name and

I say unto you that I will pray the father for father himself where is she at where did she go she left okay for the father himself loveth you because ye have loved me if you love Jesus the father loves you and have believed that I came out from God I came forth from the father and have come into the world again I leave the world and go to the father those powerful words right now powerful now Exodus 14 if you want to believe that

God I'm sure you've all heard this that God is the author of this book in its entirety we know that you know some popes along the way have added taken away books but somehow or another it comes back to 66 and when you go look at the original tabernacle after they crossed the Red Sea they built a tabernacle with God's instructions and detail three times he did not want any mistake in the way it was built the furniture and everything in it the dimensions of everything had to be perfect and when they got to the Red Sea though they had they had Pharaoh's chariots chasing them and they had their backs to the water and it's a bad place in military you got your enemy at the ocean side you got you got them cornered and that's a bad position to get into see but

[32 : 55] God's word God God is the author of this book and when they made the first camp and built the first tabernacle he gave the instructions on all seven pieces of furniture specifically the candlestick which had to do with the light of truth okay simple to remember candlestick okay light of truth solid beaten in solid gold with 66 knobs bowls and flowers engraved in it that tells me this book is what God wanted us to end up with the Torah is the first five books and then you finish out the Old Testament and start with the New Testament which when the candlestick when he ordered the candlestick and the first tabernacle be built it was several thousand years before Jesus even walked on the earth and picked the apostles who would write the New Testament so he knew the past and the future is all the same thing in God so he knew all this was going to come together he ordained it to be that way and he wants 66 books and he wanted it in Hebrew and in Greek when translated to King James

Bible I believe that as much as I am standing on that okay and to prove it God not only guided the hand of the people writing the laws and writing these things as they happened okay and when Moses got to the Red Sea and God showed him lift your staff up over the waters and I'll part up and bring the people through and he did and they walked through on dry land the wind blew all night long and dried the mud and they walked on dry ground the next morning Pharaoh's army was being held back by fire they couldn't they couldn't pass it they had to stand there and watch it happen and they were saved across the Red Sea but God wanted that to be understood that he's the cause of every word in this book and we have to understand that so here we are here we are over 2,000 years since Jesus walked here and died on the cross here we are and God reveals to a Hebrew monk to do scripture searching with what is it equidistant lettering you know like Bible code and he searched through and he found this in Exodus the 14th chapter verse 19 20 and 21 that each of these three verses are 72 Hebrew letters long that doesn't happen by accident all three verses are 72 Hebrew Hebrew letters long nowhere else in the Bible they searched out they can't find it where it doesn't happen anywhere else in the Bible and when he took the Hebrew letters and wrote them in a long line 72 letters then he took chapter 20 and did the same thing he couldn't make sense of it so he reversed the middle chapter so that the last letter was the first letter so he had first letter first letter first letter first letter 72 and then the last letter second to last third from last and so on so on and then first letter second letter so the first verse is in order and actually Hebrew is right to left right then the second verse is written in opposite backwards and then the third verse is back original again and you come up with 72 three letter words that's it it just you we sing a song I serve a mighty and awesome God you know you know that song we think God is awesome God is awesome we say that all the time I'll show you how awesome he really is do you know anybody that can write a book like this anybody ever born could write a book like this and take

three verses that describe them crossing the Red Sea and have the words show the 72 hidden natures of God these atheists think they know everything you know they try to tell you all these are just stories okay you you right let's see who just got elected president write a write a real short story about him and then encode in that his nature you got 72 names and each name is three letters long in

Hebrew and each one describes another part of his hidden nature that like he says I am that I am I'm a God of love I'm a spirit I'm merciful right we know all of these things but it's just a handful compared to this it's 72 more natures of God hidden in a scripture that just delivered a multitude out of the hands of the enemy and got them through the Red Sea yes wow what a place to put it can you imagine that and when you read it in English it don't make sense the first verse the second verse and the third verse verse 19 20 and 21 it's nothing similar to each one but yet you translate that back to Hebrew and you got 72 three letter words and you lay them in order reverse the second one lay the first one in order again and look and you take the first of each second of each third of each and you got 72 three letter words that describe his nature things about it you never believed you never did it it never occurred to you so I just wanted to share that with you that it's things like that that prove to us all how mighty

[40 : 14] God really is and how awesome he really is he not only created the entire universe but he placed the stars where they needed to be and put the earth here and put us on it you can't make stuff up like that you can't make a movie about that how would anybody know how to do that it's so awesome so yes indeed we serve a mighty God an awesome mighty God now back to this healing now by the way here is in case so you can see it I'll give this I'll give this to Seth here it is three Hebrew letters each and they they describe a word that is the nature of God 72 that's something else now on this written healing okay written healing you'll notice that that that when you you revert back to the actual scriptures and look what Jesus did when he was here that he healed the multitudes okay there was two major events that was a multitude that when you translate that from the Greek it means thousands like can you imagine thousands of people showed up here at Louisville at the fairgrounds and somebody's going to pass out free

Bibles and thousands of people got free Bibles can you imagine what a task that is how enormous that would be thousands everybody got one okay well when we look at the scriptures you find out okay there was healing the multitudes it actually occurs now I'm talking about different places different amount of people and it was only counting the men they had the number of people had to add women and children on average and come up with 15 to 20,000 people each time but the major ones they talk about is in

Matthew and you always hear about the three scriptures where they came to hear Jesus talk about the about the the new kingdom and how everything was going to be laid out and when it got done at the end of the scripture it says and all were healed now I've read that and read that and read that my whole life can you imagine 15,000 people showing up and everybody got healed of anything that was wrong with them the blind the halt the deaf the lepers the lame whatever all were healed but then you know what I found out there was more than two occasions there was more than three there is a total that I found 14 occurrences where they heard that the

Messiah whom being a Jew they grew up reading you know going to the temple and hearing about the prophets of old saying that the Messiah would come he would be born of a virgin a star would guide where he was born and you would know he's going to come here and set up the kingdom the Messiah will come and when this happened they're all hearing about it and they're saying you
