Date: 26 February 2002

Preacher: Sis. Sandy Crabtree

[0 : 00] Something in the air right there. There's a new thing inside of me. Okay, I may run through this too fast, but I'm going to try to give you exactly what I feel like he wants me to.

Because right now, I feel like some kind of drug addict or alcoholic that's just wanting something to keep coming in and coming in. And I'm going out searching for it.

But I know, I've seen people on drugs, and I know how they act. They run around to and fro trying to find it and trying to get more of it. But he's the best high I've ever felt.

I've never been on drugs, but he's the best thing I've ever felt. And it's a free thing he's got. It's not against the law. And you don't have to hide to do anything in him.

You can do it all out in the open. Isn't that wonderful? And if you need more of it, all you've got to do is call on his name.

[1 : 05] Just say, Jesus. Somebody say, Jesus. You're better than anything that's out there I've ever been on. I've had more fun in Jesus than anything I've ever done.

I've had more fun in Jesus than anything I've ever done. Why do we go to church so much? Because it's so real, and it's fun.

I mean, you who ain't in here, honey, it's fun. We got fun around here. We get high on him. And then we get to go praise, and we get to worship, and we get to hear his word.

All right, now let me get to the scripture stuff, because that's real important. Where Brother Larry was speaking from was chapter, in Ezekiel chapter 37.

You can look it up, or you can just wait until you get home, because I'm not going to read it all. I'm just going to touch on some of it. I'll try to be short. And there's no way I can touch everything that Brother Larry did, like I said before.

[2 : 13] It's way out there, the stuff I'm fixing to talk about, which was way out there, the stuff he talked about. And it may not be way out to you. You may have already seen it years back, but I didn't see it until just now.

Okay. I'm probably going to read a little bit of this. This is where God placed Ezekiel in the valley of dry bones, dead dry bones.

They've been there a real long time. God told Ezekiel to prophesy to these bones to bring them to life. Now, Brother Larry, he pointed out that in the dirt and under the bones are particles, which we know could be blood or DNA.

And DNA can be checked through blood. So they'll know who they are. All right. Back to the scriptures. The Lord tells Ezekiel to prophesy to these old dry bones.

He tells him again. And the Lord says, you tell them this. Ye old dry bones, hear the word of the Lord. Thus saith the Lord God unto these bones, I will cause breath to enter into you, and you shall live.

[3 : 24] Then he said he would cause flesh and skin to come up on the bones, put breath into them, and they would live. Then shall they know he is God.

Okay. Okay. Now, all that was left of the bones was dried. All the bones, all that was left there was some dried up blood lying underneath them.

That was old dirt and, you know, but when blood dries up, you know, eventually you can't tell it's there, but it just keeps working into the soil. So through the prophecy and the power of God coming from Ezekiel, the bones came together, bone to bone, flesh on bone, and skin on the flesh.

They formed a mighty army and fought to bring Israel back together. And when you read your chapter, you'll know what this is all about. But I'm just touching on this just to get you to where we were, where Brother Larry was at, but not all the way because he taught us so much.

This all happened in the spirit. But all that there was still left was blood and DNA.

[4 : 42] So Ezekiel spoke to the DNA, so to speak, and caused those dried up bones to live. Let me tell you a little bit about dried up bones.

Everybody knows that by leg, I had surgery on it because I had an accident. And I got a bad infection in my leg. And they'd done everything they knew to do, but the blood kept dying in it.

The skin wouldn't take. The grass wouldn't take. The bone, it was infected. That's what they finally said. Oh, your bone's infected. And that means my bone was dead, so they had to take that much out.

Okay, so they did a surgery on me. Y'all with me? They did a surgery on me, which was after 10 or 12 other ones.

And they said, well, we're going to do this last thing to you. They put a bone in there. They made one. They made one out of my pelvic shavings and out of muscle tone.

[5 : 50] All right. Let me get to where I'm at here. The last resort was to do this.

Or they was going to cut it off. It was that bad. They was going to cut it off. It may not look good on the outside.

Nothing may not look good on the outside. But God can clean up stuff on the inside, and he can cause blood flow to come back. I'm talking spiritually as well as naturally.

He can make your blood flow to come right back into you. He can make your blood that you, when you were once saved, he can cause that blood to wake up. His blood's a crying out inside of you.

People have come in and out of this church for years, and churches all around here. Many of them once got saved and backslid. They are in a spiritual graveyard.

[6 : 50] But that same blood of Jesus that cried out to them for salvation is just lying dead inside of their souls. Y'all hear me? It's still there.

It's dead inside their souls. But when we cry out to God, and we wake up the spiritual DNA in that blood, we, as Christians, we call out to the blood of our loved ones, the blood mean the lifeline of our loved ones.

They have no choice but to come back through those doors of the church who have prayed and prayed for them to wake up and arise, ye old dry bones. Yeah. I hope I'm getting somewhere here.

I guess you want to know if blood can cry out or it's something I just made up.

Well, Brother Larry told us, yeah, it could. And he opened up a brand new can of worms, didn't he? But I can't stop thinking about it.

[8 : 01] I've been thinking about it ever since he preached it. I've been writing on papers, like I said. Anybody goes over to my house tonight, they'll see papers everywhere because I've wrote everywhere. And I run around looking for them, you know, Lord, where's the one I wrote on that?

You know. But I pulled some of them together. All right. Let's get to the scripture. Where does the blood cry out?

Well, let me tell you something else first. This is leading up to when Cain slew Abel because he was jealous. You see, God had accepted Abel's offering and Cain's offering, God did not have respect for.

Then when Cain and Abel are alone in the field, Cain kills Abel. Then guess who shows up? Okay, now you can turn to Genesis 4, 9 and 10.

I'll give you time to get there. Everybody seems so quiet. I hope I'm doing well. I'm trying to add two.

[9 : 11] I may not be adding two. I may just be confirming what he said. Is everybody there yet? Okay. And the Lord said unto Cain, Where is thy brother?

And Cain said, I know not. Am I supposed to be his keeper or what? The Lord says, What hast thou done? The voice of thy brother's blood cries out unto me from the ground.

So see, your blood can't cry out from under the ground. This is Abel's spiritual DNA crying out from the dirt that he is in. He's crying out to God from the dirt that he is in.

He said, Look what he done to me, Lord. What are you going to do? You going to do something? The Lord said, Hmm? Yes, I am. So there's some more to that story, but I'm not going there.

The Lord did take care of Cain. And the brother of Anne can kind of elaborate on that when I'm done if he wants. Okay, now I'm not trying to get you to believe that there's some spooky voices coming up from all the graveyards around here.

[10 : 26] They're crying out, all right. But in a spiritual sense, God hears them, every one of them. Some are crying out because they didn't surrender and give their lives to him. And they are in torment where they're going to stay for eternity.

Because they've already made their grave. But on the other perspective, the others are crying out, praises unto him, and waiting for his appearing.

For they know, well, he will arise first. They will arise first, and they'll go to him. Because he said the dead in Christ will rise first. And how do you think he's going to call them? But through their blood and their Holy Ghost that they have inside of them.

So if I were you, and I was lost, I'd be heeding to his call. I'd be running to his call. And calling on him before the spiritual graveyard comes upon you.

And you're lost forever and ever and ever. Okay. I'm going through this pretty fast. But I'm just doing what the Lord said.

[11 : 30] I'm new. I've been in this for years, but I'm new. I'm telling you. And I'm telling you, if you want something from me, all you got to do is sit down and do what he says. You got to sit down, stand still, and wait for him to give you something.

I didn't ask him to give it to me. I didn't ask him. I just sit down and wait. And he gave it to me, and I wrote it down. We're looking at this on the spiritual side. But everything we do in the spiritual affects our natural lives.

Don't you think that God knows each and every one of us, whether we're dead naturally or spiritually? He knew Abel from under the dirt because he was connected through Abel's bloodline.

He heard his cry, his blood cry out. It literally cried out to him, asking him to take care, avenge his adversary, so to speak, which he was his brother.

But sometimes our brothers don't treat us so great in the flesh or in the spirit. Lord, help me. Y'all pray.

[12 : 37] Okay. He is connected to all of us because he created us and gave his life's blood to save us from a life of eternal hell.

He gave everybody that choice. He gave all of us an opportunity. Before he comes back, everybody in this whole wide world, everyone down to whoever, to what's that guy's name that blowed things up?

What's his name? He gets a chance to. He may have already had his chance and bloated. But God will give you, every one of you, a chance. And everybody, I don't care if you bleed, you're a Satan worshiper.

God will give you a chance. If you don't take it, then you're bound for hell and you're going to be crying out from under the ground, burning in a hell that you can't get out of in so much torment. Amen. I know some of you think I'm plumb gone off of my rocker up here.

My kids probably think, Mama, what is wrong with you? You never told us this when we was kids. No, I didn't, and I apologize. I'm so sorry that I did not teach you all I knew about God because I really should have.

[13 : 46] I love you, son. You know what? If you think I'm off my rocker, when we leave here, son, you can lock me away.

Just let me have my Bible. Well, we'll see about that. We might negotiate. But I know God's revealed this to me.

Everybody in here knows I don't do this stuff. Okay. In the spirit, I think I'm going to get an A plus on this.

But in the flesh, I feel like I've really failed. But in the spirit, I know God's going to give me an A plus because I made the effort. If you make an effort to do what God wants you to do, he will give you an A plus every time.

Just for the effort. In the school, it says E for effort. But I'm saying A plus because he's A one. Okay, here we go.

[14 : 44] Now, that was kind of more touching on what Brother Larry gave us. I add a little bit to it, but not a lot, but a little. But I'm going to add something else to it that blowed me away a little bit.

Let's talk about conception and birth in the spiritual and in the natural sense. In the natural, our bloodline comes from our parents and their parents and so on.

The DNA is already determined in our blood, in the blood of our parents before we are a baby in our mother's body.

And we can't alter or change it in any way. It's like it's written in stone. And that's that. That's the way it is. That's right.

If our blood is the same as our parents' blood before us, then that means, listen to this, Trev, our children, our aunts, our uncles, our grandchildren, our brothers, our sisters, and their children have the same DNA.

[15 : 54] Now, this is in the spiritual sense, too. We're looking at it both ways. All right? That was kind of in the natural more. That's what connects us is love and our blood.

Okay, now on the spiritual side, in his word, in Acts chapter 16, 25 through 32, I'm trying to eliminate or save time.

Acts chapter 16, 25 through 32. If someone wants to turn to it and read it for me, they can.

It may help a little bit here. I'm a nerves. My nerves are not as bad as they were, but they're getting. I'm getting bolder. Getting bolder. You know me. I ain't scared of nothing. Go ahead.

And at midnight, Paul and Silas prayed and sang and praised unto God, and the prisoners heard them, and suddenly there was a great earthquake, so that the foundations of the prisons were shaken, and immediately all the doors were opened, and everyone's hand was loosed, and the keeper of the prison awaking out of his sleep, and seeing the prison doors open, throughout his sword, he would have killed himself, supposing his prisoners had fled.

[17 : 13] But Paul cries with a loud voice, saying, Do thyself no harm, for we are all here. Then he called for a light, and he sprang in, and came trembling before them, and fell down before Paul in silence, and broke them out, and said, Sirs, what must I do to be saved?

And they said, Believe on the Lord Jesus Christ, thou and thy house shall be saved, and thou shalt go in the house. And they spake unto him all the words of the Lord, and all that were in his house.

And it said, What about the house being saved? All of his house. All of his house. If they do what? Believe. If they just believe on him, ask him forgiveness of their sins, all of their household will be saved.

Okay? That was the promise that God made. So when we as a church, this is where the natural touches the spirit, or what I'm trying to, I hope y'all are not getting confused on me, because at first it confused me.

When we cry out to our spiritual DNA, and get about our Father's business, the spiritual DNA in us will wake up the ones who are connected to us in the natural.

[18 : 30] Because we're getting closer to that bloodline of Jesus. We have to keep our spiritual eyes open in order to make our natural lives work.

This is faith. Unseen spiritual DNA working on the lives of our loved ones around us. Unseen spiritual DNA.

Unseen. We can't see it. We don't know it for sure, but with that DNA, between us and God, we feel it. We can't see it, but we feel it coming.

Don't you feel it around here? I feel it. Everything around here has been going on. Don't y'all feel it? Look at Chucky sitting there. Look at her. Look at her.

And if you step out through, what is it, Jesse, you gotta step out through? Get up and show them with your feet. Come on, Jesse. Show us. Obedience. Say it again.

[19 : 30] Faith. Obedience. Faith. Obedience. If you keep stepping out in that and you keep moving on in that, that's all you need. That faith is what we need. You gotta step out in it, though.

You gotta make a little leap yourself. You ain't gonna sit down and God's gonna say, okay, here we go. No. He wants us to show him that we mean business. Whew.

Glory. Glory. Still hoping I make sense. Whew. Once we cry out and their DNA gets touched and woke up, we may not be able to knock out enough walls to contain everybody connected to everybody that's connected to everybody that's gonna walk through the door.

Our church is gonna grow. Our loved ones are gonna be in here. I'm not trying to push salvation on nobody. Just because my son's here, I'm not trying to push it on him.

But this is what God gave me before I knew he was coming. So, you know, I'm gonna go ahead and say it because I believe it. I believe that once I taught him when he was young or anybody teaches their children in their household, even though they stray away from it, even though they stray away, they got to come back.

[20 : 46] They gotta still believe. They gotta still pray just like we do. Whew. Turn to the next page.

Y'all see I'm reading most of it, but I don't know any other way to do it. When God gets his anointing moving on me a little more and I can get it in my brain, which I don't have a real good, fast-moving brain, but when he does, then I'll be able to stand up here like Brother Van.

I'm not claiming to be a preacher, but I know God's gave me something. He's gave me a new anointing that I have never had before. He has gave me something in my heart that I can't explain. It's a rolling in my head and it's gonna come out somewhere.

Praise the name of the Lord. Praise the name of the Lord. Praise the name of the Lord. Hallelujah. Thank you, Jesus. Thank you, Lord.

Oh, hallelujah. Glory. Oh, glory.

[21 : 50] Man, man, man. Psst. Psst. Oh. Hey. Psst. Psst.

Psst. I feel it, don't y'all? Woo. In the body, getting back to this word, in the body of a woman, the bloodline is what keeps the child alive after conception.

I know many of you have heard this preach before, but bear with me because I'm just now getting it. I know Brother Vance preached about the blood and the bloodline and all this before, but we've never heard of DNA like that before.

He hasn't either, but I've never got it. Not because he ain't preached it right, it's just because I ain't had an ear to hear it. And you gotta have an ear to hear what the Spirit says to the church. You gotta listen when it's time to listen.

Sit down in the church and listen. You can't run in and out. You can't let your kids run in and out. I'm not trying to put nobody down or tell you you chase your kids around, but I'm telling you that they will sit down if you make them.

[22 : 59] Pray for me. I love everybody. I love everybody's kids in here too. I have to make mine sit down when they're here. They like to run around too, but I won't let them. Okay, here we go.

That's probably brushed up my message too much. Whoo, glory. My spiritual side is just busting out.

My natural side a little bit too. But my spiritual side is busting, I'm telling you. It's busting. I can't explain it. I can't explain it. I can't explain it.

Whoo. I'm gonna get with God better than I had before. I'm gonna listen to Him better than I had before because I love Him with all my heart. I do. I love Him with all my heart.

I don't have nothing to hinder me. I don't have a man to hinder me. That's all right. I had one for 20 years. I served my time. Praise God. Whoo.

[24 : 01] Glory. I'm not saying you need to get out of your marriage, but when you do, that's okay. God will be your partner. He'll be your partner.

And you can get spiritual births through Him. You know, I don't know. Natural kids, you'll get spiritual births through Him. Pray for me. All right.

So naturally, we're kept alive by the flowing of the blood inside of our mother's body before birth. All right, now listen to this part. Before we are conceived, our seed is kept alive in our father's blood flow.

Am I correct? Okay. Now, in the spiritual side, the Holy Ghost came down upon Mary and placed Jesus with her.

And He was kept alive in Mary's body before He was born by her blood flow. It's all got to do with the blood naturally and spiritually.

[25 : 09] All right. The Holy Ghost is what moved it. The Holy Ghost is what brought Him down. So the Holy Ghost brought the blood flow into Mary in order for her to conceive.

And we all know where Jesus was, don't we, before He came down here. Where was He? If we was with our Father before we were conceived, where was Jesus?

He was with His Father. Okay. So it all works in the same little realm. You know, spiritual and natural. Jesus was with His Father and we were with our Father.

Then Mary, she had Him and His bloodline was in Mary. And so on and so forth. We are now and have been down through the ages connected through His bloodline by His grace.

Look, I'm telling you all, I wrote down this stuff and I don't even, I don't even understand myself how I wrote it down. Because I'm just plain. I'm a plain old girl. I come off of Lee's Lane down here.

[26 : 17] Fighting and scratching with among the rest of them, you know, as I was growing up. But praise God, I never got on drugs. And I never liked to drink so much that I got an alcoholic habit.

But I praise the Lord that I stood up for what He stood for, what He is and what He stands for. I, I braised my kids the way I felt like I should, but I still could have done more.

I could have done a lot better. But I got good boys. They love their children and they love mama. They love their daddy too. And I want them to love their daddy.

Because he is part of them. Okay. Here we go again. On another little page here. Blood's what keeps us alive naturally and what gave us salvation through the Holy Ghost and His Word keeps us fed spiritually.

Okay. Now let me say this. If you don't eat for a month in the natural, if you don't eat for a month, aren't you just do without food?

[27 : 26] A month. You might be able to go two months. I don't know anybody that has, but you might be able to without a food or water or nothing. What's going to happen to you? You're going to die.

Okay. Now in the Spirit, what makes you think that you can keep living in the Spirit without getting into His Word? because His Word is what feeds us and keeps our Holy Ghost going.

Our Holy Ghost cannot work unless we feed Him with the Word. And unless we keep on feeding Him and feeding Him, just because Brother Van preaches to us on a weekend, that don't mean we got to go home. I've just learned this this past week.

I've been going here for years. I've just learned this past week. We got to study our Word and get in the Lord to keep this spiritual realm we're in going. Because if we don't keep in Him, this spiritual realm is going to go away.

It's going to die. Just like you do in the natural if you don't eat. It's okay to fast and pray. When God tells you to do it, it'll be done right and you won't hurt your body.

[28 : 30] But if He don't tell you to do it and you're just doing it, you're going to be sick. And you know what? If you don't eat, if you don't eat from God's Word, you know what's going to happen to you?

You're going to get anorexia in the Spirit. You know what I'm talking about? Even though I'm big and fat, I had anorexia because I didn't get in my Word.

The Spirit will not feed off of anything, but the Word, when you get the Word in you, then the Spirit can go and then you can help someone else. Until we get that in us, we can't help nobody.

Praise the Lord. Okay.

Now, in closing, I got one more thing to touch on. Well, I got two or three more pages, but it's going to be one more thing. In closing, this is just the...

[29 : 31] I'm just saying that. You know how women are. In closing, the word omnipresent means what?

Always. Everywhere. All around us. Above us. Below us. Everywhere. I feel... I'm going to read it because I don't want to mess up.

I want to get it right. I feel that the blood of Jesus is omnipresent. He is hovering over us everywhere. It is all around us, above us, below us, in us, saint or sinner.

It's all around you. If you ever knew Him, He can talk to you. And He's trying to talk to the ones that didn't know Him. They just ain't listening yet. But they're going to because it ain't going to be long until He comes back.

Whew. Let me see where I'm at here. And His blood is just waiting for us to call out that DNA within our spiritual man to give us strength and power.

[30 : 49] I said to give us strength and power. Can you say anything about that? What does He do? He gives you strength. He gives you power. Over all sickness, all disease, all drug abuse, all alcohol abuse, in sickness that binds us up and backs us so far into a place that we can't get ourselves out of.

That kind of sickness. If you are in a place like this, remember His blood, every drop of His blood dripped off of Him for you and me.

Y'all pray for me. It dropped off for all of us to be saved from these horrendous pits we got ourselves into, to save our souls from hell.

Everything and anything that goes wrong with us, the Lord's able to fix. because I found out that there's nothing impossible with Him. Not one thing have I went to Him for that He ain't helped me with.

He might not have done it when I thought He should, but He always did do it. I know some of you that, you know, that don't come to church much feel like an altar call.

[32 : 13] We might be trying to scare you into coming up front. Oh, man. But I ain't got a sales pitch going here.

I'm just trying to tell you something that will be of no use, that will not be of no use to you. I mean, oh God, I gotta say it over. See, because I'm reading and I'm not learned in the Word, that don't mean that this is not in the Spirit because I'm in the Spirit here.

I'm telling you that this is not a sales pitch I'm bringing to you. It's something that God gave me to tell you. I'm not gonna sell you nothing.

Give you something that will be of use to you. It's a gift. It's a free way out. I said a free way out. Don't cost you no money. Everybody's always worried about, well, how much does it cost?

It don't cost nothing. Not one thing. Whatever torment you might be in, Jesus is on your side. And He knows what you're going through.

[33 : 26] Please, please wake up before it's too late. He's your answer. Nothing is too hard for Him. Just give Him a little try because once you just step out and give Him a little bitty try, He's gonna be right there.

and He don't mind. Jesus don't mind that we wait to put Him last. He doesn't mind because He likes to work, as the song says, when nothing else will.

If you're searching for peace and happiness, give Jesus a try, please. He chose you a long time ago and He's wanting, waiting for you to choose Him.

The decision you make today could change all your tomorrows. God bless you. Come on, give the Lord a great big hand.

We can do better than that. Amen. Amen. Amen. Amen. You see, until you have been under the burden and the pressure of the Word, you get under the burden of the Word and then the people that are coming put pressure on you because you're afraid you may say something not exactly right or be taken wrong and everything.

[34 : 56] Amen. But I think she did a fantastic job. Amen. Amen. Like I said, I went down to Calhoun Sunday evening and I began to, I had my message all fixed out and I was gonna, gonna preach on the four things that Jesus Christ gave in the book of John and I didn't, I didn't hardly get started in there that I got on DNA.

I even went back there to find out what in the world DNA was because I, I know I can't, I know I surely couldn't spell it without some help. It's deoxyribonucleic acid.

You know, they figured out how to clone sheep. Somebody said they didn't figure out how to clone a cow. Well, you know, a sheep and a cow don't have a spirit and a soul.

But God said in Genesis 1, 26 and 27, let us make man in our image and in our likeness. Amen. And then down in 2 and 10, he says, and God created man out of the dust of the earth and breathed into his nostrils the breath of life, the DNA.

See, you cannot, they cannot, they can't, man can't make anything new. They, sometimes they can copy what God already has and what they're not telling you is that all these little lambs and these cows that's been cloned, all of them are screwed up.

[36 : 25] They're not right. They're sick. They're dying. They're mutilated. They're a defect. Hallelujah. But mankind just keeps on. Hey, just keeps on.

Amen. Only thing that screws up the DNA in a person is if a mama's carrying a baby and she gets off on drugs and alcohol and cigarettes and all that stuff, whatever that goes into the mother comes into the baby.

Amen. But you know who determines the bloodline? Who is that? Hey, you know, I have O-positive blood. You know why I've got O-positive blood? Because my father has O-positive blood.

But do you know what? Hey, I got some other kind of supernatural blood. Amen. When I got born again, how to do you, and Jesus Christ became my father, now the bloodline of the almighty God is flowing through me.

Amen. Woo! See, I don't know about you, but I didn't go looking for God. Hey, I was lost. I was in hell. I was spending my time doing my thing. And Jesus Christ came looking for me.

[37 : 21] Amen. Hey, while we were yet sinners, Christ died. While I was taking his name in vain and cursing and doing drinking and smoking, chewing, dipping, every ungodly thing, Christ died for me.

He looked down. He didn't, he don't see what we were. He don't see what we are. He looks inside and he sees that DNA, that spirit part that they can't understand.

They've separated it, but they can't, they can't even, even, even clone it. And do you know what, what, what brother Larry said he went to, and, and so funny because I was preaching this down there and another preacher came up to me when I got through and began to relate some things to me that he had already heard on the Discovery Channel.

They went down to where they fought the battle of Little Bighorn. They've already done this. I didn't know it. Brother Larry didn't mention it. And they, they, they went there at that very same place where the battle was fought for where so many hundreds of people have died.

And they begin to take soil samples. And did you know what they found in those, on that soil samples? They found out that there was DNA. You know where it's easily found at?

[38 : 27] It's easily found on the battlefield. Now somebody told me that they can just take a swab, wipe it on your tongue and your, the saliva in your mouth. The, hey, one little particle of skin holds the whole DNA of your, of your existence.

that they can take one hair out of your head and, and, and check the DNA and find out how many different drugs you've been on. Somebody said, oh my God, I better shave my head. It won't do you any good. Because it's already in your blood.

Amen. But, Jesus Christ said, I came to save you from your sin. Hey, when we were in sin, when we were doing every ungodly thing, Jesus Christ loved us so much that he gave his life for us.

And then, you know what happened? His DNA became our DNA. His life became our life. Now we don't have to die and go to hell if we'll accept Jesus Christ as our Lord and Savior and apply his blood.

Amen. Now, it is no longer the natural blood of my father. My natural father flows in my veins. I've got some supernatural, omnipotent, omnipresent, omniscient blood that knows all. It's all powerful and is everywhere flowing through my veins.

[39 : 39] And let me tell you this, we've had, this church has been here for a long time. I've only been here to be 16 years in June. But I don't think I invented shouting when I came to Louisville.

Did I? I didn't invent shouting, did I? Did I mama? Did I answer the alma? Amen. Amen. The battlefield is the best place to find DNA because that's where the bodies have fell and fallen and decomposed.

That's where the blood has ran down. That's where when they pressed Jesus in the side, you know what came out? Blood and water. I preached tomorrow night. Sister treatment preaches Thursday night. Brother Donnie preaches Friday and Saturday night.

And then I'll preach Sunday again because it's the Lord's will. But I just got to tell you about it. I'm excited about it. Hey, you know what? If it's in every slobber, sometimes I get preachers hard.

I want to get through preaching, look at my glasses and I don't see how I even saw anybody out there because I slobber so much on my glasses. I got that DNA all over my glasses. But do you know what? How many saints have gotten out here, man, when we shout, man, we shout.

[40 : 46] I mean, give me a little Steve Phelps. This is a brother that I led to the Lord when I worked at TVA.

He's a great big guy. He almost don't have any neck. His head goes down like that. Strong as a bull, about 275, 80 pounds. But brother Jeremy has got him cloned when it comes to shouting.

Hey, where's Paul? Oh, there's tall Paul. He got tall Paul. He was showing me today in the car. Come here now. Give me a little bit of, this is brother Steve Phelps down in Livermore Church.

And now, let me tell you. Now, y'all think we shout a lot. We don't shout. We're trying to learn. We'll load up sometime. We'll go Livermore.

Come on, come on, give me a little bit. Would your mind turn around the other way? Come on, I can't do it. I've tried. I can't do it. But Jeremy's got, Jeremy's got him down.

[41 : 47] I mean, he's got him. Come on, put your shirt tail down. Let's go, go the whole thing. Here's the way. Now, this great big monster of a guy. I mean, you just, his arms feel like fence post.

I mean, this guy is, and a dog catcher. Hey, you don't want to know his past. Thank God.

Just thank God we know his future. We don't want to know his past. I know what he has been. One more time here. Now, you try that for about an hour and a half.

When, when you got somebody on this side bumping you and you got somebody on this side bumping you, and man, it's almost like you're up there doing a bump because people are shouting and praising God. Honey, it ain't long.

It isn't long before the perspiration begins to come out of your brow. And then you're sweating and you're spitting and you're shouting. I'm about to y'all call back. Oh, man, you fall out on the floor. You may turn some flips.

[42 : 48] You may roll. Honey, what you don't know, hey, this is a battleground. Oh, it's easy to sit back there. Why don't you get up and walk up here and stand by me and just see what it feels like to stand on the battleground. This is where the victory's won.

This is where the battles are won. Hey, shut the bar, hey, shut the bar, shut the bar. Hey, whoa, how many battles have been fought right here in Riverside Garden? How many battles have been, how much DNA is in this floor?

How much is our God going to look down and he's going to call those people back to life? How many people one time shouted the victory? They shouted, they praised the Lord, but they lost their desire. How many people used to shout, run these aisles?

Just like old Boomer over here. You think playing drums is easy? Oh, it looks fun. Oh, you just sit up there. Why don't you do it for a little while? Do it for a Holy Road or church when they sing for an hour and a half.

Brother Randy, Frazell, went home the other night. Used to be the drummer for the Craven and went home that night. He couldn't go to work the next day. Blisters on both hands. You know why? Perspiration running down.

[43 : 52] Blisters running down. It's a job. Amen? You know, Boomer, he thought he was gone. Woo, run up here, Boomer. Come on, son. You got any blisters?

He's only got a few blisters. But I'm glad you didn't perspire when you were on those. You didn't perspire over there, did you?

No. No, no. You can beat them drum for two or three hours and never even work up a sweat. You believe that? I'm going to have a lot more. Woo! Hey!

Now let me explain to you what happened. Boomer went out. I don't even want to know what all Boomer did. I do not want to know. But what I do know is this, that when he was playing our drums, he was sweating, he was perspiring, he would, my God, bang, bang, bang, bang, bang, bang, bang.

And that perspiration is falling off on the floor. You know what? God looks here and he sees us crying out. I've been here for 16 years and I've been crying, God, send revival. God, help me, Lord. We need help, Jesus.

[45 : 03] We need you to do something. And you know, the more I pray, the more I pray, I turn around, I see people walking out the door. They ain't coming back. And I say, God, what's going on?

He says, sometimes you got to go down and appreciate what I've given you before you, hey, hey, if you just walk in on the blessing side and the pleasure side, you can't really, I'll just step in, we on the battlefield, baby.

You can't really enjoy the joy of the Lord that comes after you know that you're no good, after you know that you deserve to split hell wide open. You ain't worth the power it takes to blow you to hell.

And Jesus Christ said, you're my son. I love you. I died for you. Please serve me. My Lord, how can you look in his eyes? How can you look in the eyes of Jesus Christ and say, I don't want you, I don't need you, I don't love you, but he loved you so much.

And he made it through him. And he made it through him, and he made it through him,
and he made it through him, and he made it through him, and he made it through him, and
he made it through him, and he made it through him, and made it through him, and made
it through him, and made it through him, and made it through him, and made it through
him, and made it through him, and made it through him, and made it through him, and
made it through him, and made it through him, and made it through him, and made it
through him,
