..... The final fire of the divine nature dwells in the bush of our frail nature, yet it is not consumed thereby.

[5:00] The final fire of the divine nature dwells in the bush of our frail nature, yet it is not consumed by the divine nature, yet it is not consumed by the divine nature.

The final fire of the divine nature dwells in the bush of our frail nature, yet it is not consumed by the divine nature, yet it is not consumed by the divine nature, yet it is not consumed by the divine nature.

The final fire of the divine nature dwells in the bush of our frail nature, yet it is not consumed by the divine nature, yet it is not consumed by the divine nature.

The first 40 years he thought he was somebody. He spent the next 40 years learning that he was a nobody.

And the final 40 years of his life, he came to learn how God can use a nobody.

[6:55] The final fire of the divine nature, yet it is not consumed by the divine nature, yet it is not consumed by the divine nature.

The final fire of the divine nature, yet it is not consumed by the divine nature, yet it is not consumed by the divine nature. And he is not consumed by the divine nature, yet it is not consumed by the divine nature, yet it is not consumed by the divine nature.

And he is not consumed by the divine nature, yet it is not consumed by the divine nature, yet it is not consumed by the divine nature.

And the divine nature, yet it is not consumed by the divine nature, yet it is not consumed by the divine nature.

And the divine nature, yet it is not consumed by the divine nature, yet it is not consumed by the divine nature.
